AWAITS TRIAL FOR SPEEDING

Birmingham Man Charged With Travelling 91 Miles Per Hour in Pontiac

William Cowell, 1539 Humphrey avenue, arrested by Pontiac Police at 11 p. m. Saturday for driving his motorcycle 91 miles an hour on Woodward avenue, is being held at the Oakland County Jail today awaiting examination before Justice Henry W. Harpster on a reckless driving charge next Monday.

Cowell, whose speeding police charge is the record attained by motorists in the history of Pontiac, pleaded not guilty when arraigned before Judge Harpster on Saturday and was held on bond of \$300. Motorcycle Examiner George Fredericks, who arrested Cowell at South Saginaw street and Water street, declared that Cowell admitted he had been travelling 91 miles an hour.

Cowell was accompanied by his wife, police report.

(Concluded 1 from Page 1)

finish. Now for the sensations and surprises. These are the days that will test the respectfulness of the candidates. Here is where their courage upholds them or the lack of it leaves them trailing—the "also rans." There are times, too, when supreme courage urges them on when they tire. And that is the GAMST FIGHT OF ALL.

Cas Casual Winning Votes
Voters will pile up rapidly during the next few days, and while the "Second Period" schedule is in effect. While the Second Period schedule is less than the first, votes are so liberal that any candidate can take advantage of it and win. The decrease in the schedule between the first and second periods is not to be compared to that between the second and final periods.

The LIVEST part of the competition is now at hand and while all the leaders are practically on the same footing, at the same time those who want to—and will—the afford the opportunity to forge ahead and corral the winning 100 Per Cent Efficiency Counts.

From now on until the finish is the time when the 100 per cent efficiency counts.

A few more laps and the course will have been run. Only a short time remains to choose between victory and defeat—success or failure. Opportunists in plenty present themselves today to those candidates sufficiently determined to rise them.

It means a great deal to win one of the biggest prizes in a competition of this kind—IT MEANS from \$900 to \$1,667. The reward is extraordinary. The fact of winning proves a winning personality. It proves ability. Now for the HOME STRETCH.

Take advantage of the present subscription price of \$1.50 per year in Oakland County. After the Everybody Wins Campaign the price is going to be raised to \$2.00 per year. Subscribe now and help a candidate.—Adv. 11

WE HEARD IT SAID BY—
Donald B. Stewart, grounds keeper, Birmingham Tennis Club: "Rainy weather last week caused a decided drop in the use of the tennis courts here. Although the courts were well-drained, players always come less when it rains.

(Continued 2 from Page 1)
and pointed out the comparative identity of topography and conditions between Oakland and Westchester Counties. Mr. Downer expressed the Detroit and Oakland County area for causing the road to be built through the production of motor cars.

Urges Early Action
"We can always build buildings, but we cannot always buy land," he told the members of the board in urging them to early action in developing a program of park and parkway projects. "In Westchester County," he said, "we started with a \$2,500,000 program and the next year this was doubled. The following year property values were so stimulated by our work that we had no difficulty in obtaining \$10,000,000 for development.

"Real estate values in Westchester County are now three times what they were before the development project was begun. Our idea was to develop a network of parkways for motor traffic and today we have more than 160 miles of these parkways, numerous parks ranging from 4,000 acres to 300 acres in area, amusement places operated on the most sanitary and modern plan, golf courses and swimming places that attract hundreds of thousands of New Yorkers every year. O' P. A. L.

Mr. Downer then illustrated the work the Westchester County Park Commission had done in the development of the parkway system showing the improvement were reflected on a screen at the conclusion Mr. Downer showed that revenue from the parks not only paid for their maintenance and improvement but brought in a considerable profit.

(Concluded 3 from Page 1)
Har got a pair of ladies' silk hose, but he hope that Mrs. Hart likes them.

(Of course the Rotarians got the best cup. This was the first time Exchanges hadn't had it in 27 years that it has been up to competition. (There have been five years of these tournaments, but the first year there was no cup.)

Then the prize for the first low score went to Charley Boughton, who had a net of 69. Charley had a handicap of 35, and scored 104. He was awarded three golf balls.

Wins A Chicken
The second low net prize went to Hal Schlaack who had 64 for his, making a score of 88 with a handicap of 25. Amid cheers, Harry Starr, once a village manager but still a good golfer, received an order for a large chicken from the Stroup's meat market. Harry drove the pig 251 yards, accurate measurement by the club manager, for the afternoon's longest drive.

The first low gross prize went to Lou Colgrove with 77. He was awarded \$5 in gold presented by one of the banks (each of the three gave \$5 in gold.) The second low gross prize went to Guy Jensen with 81. He was presented with a fishing reel donated by Lester Slauer.

Charles L'Hommedieu had only 28 puts in the 18 holes. He received six golf balls donated by McBride's Hardware. Out of a drawing between Decs Gibson, Beck, and Shaw, the winner was the reactor, Dr. Shaw was the lucky man and received a billfold for the greatest number of puts. Each of the others received a golf ball as a consolation prize.

John Maynard, George Baldwin, and Oscar Peterson were tied for the greatest number of birdies. A drawing gave Peterson a free car wash at the Whippet Auto Sales. Each of the others received golf balls as a consolation.

Best Form Awarded
For the best (7), anyway, the most unusual driving form, Frank Mulholland was awarded a large slab of bacon. Amid cries of "rabbi won't let him eat that!" Frank announced that it was "kosher bacon—it's all right." Another slab of bacon was presented to James V. Bayly in honor of his high score of 191.

Then were awarded (last, but oh, not least) the prizes in the Kickers' Handicap. These were chosen by lots, The Kickers' Handicap was made up of players getting scores between 70 and inclusive. Tunis Miner started things by getting another of those 35 golf balls. Or Osborne captured a cabin clock donated by Elmer Hinton, and Walter Pratt a tie from Peck's. A huge basket of fruit from Miner's Grocery went to Tom Cobb, and Dec Shaw completed the list with a carton of cigarettes.

Forty-six members of both clubs golfed and dined.

A photograph record that will play for an hour or more from a single roll has been developed by the General Electric Company.

NEW AIRPORT NEXT SUNDAY

Program Planned For Project Near Woodward Avenue

Woodward Airport, an aviation project sponsored by Don M. Harris, at Clawson road near Woodward avenue in Birmingham, will be officially opened Sunday afternoon when a program of entertainment and aviation exhibitions will be given. Harold H. Emmons, former police commissioner of Detroit and recognized as a pioneer in the aviation industry and aviation law, will be the guest speaker and speaker of the day. Mr. Harris announced.

The program will include a parachute jump by Dan Bergin, a glider exhibition and an air show by pilots of the Michigan National Guard. Mr. Harris announced. Many leading aviators of Detroit and Pontiac have accepted invitations to visit the new field on the opening day and Bob Koppels, aviation enthusiast, will attempt to "buse" a parachute. Mr. Harris says.

In announcing the opening of the project, Mr. Harris said: "We expect to make Woodward Airport a model of its kind. It will be a strictly Home-Jet Airport to supply the needs of the residents of Detroit's great playgrounds, as within a radius of a few miles are located a large majority of Detroit's clubs and golf courses as well as thousands of homes and estates of Detroit's wealthy citizens. It is one of the most accessible airports around Detroit, with wonderful transportation facilities, street cars, buses and a paved taxi way to the entrance for automobiles. It is only about 1,000 feet from Woodward avenue, running back to the Grand Trunk railroad right-of-way. The field is level and is completely drained by the Birmingham sewage system."

"I have been on many airfields throughout the country but do not for the purpose that this field. It lies adjacent to Sheffield Estates, Stormfitts-Loveley's subdivision, ample for parking spaces for automobiles has been provided. This airport lies in the Village of Birmingham and would be an ideal site for a Municipal Airport for Birmingham, something that the village needs."

(Continued 4 from Page 1)
fremen worked for almost an hour in an effort to revive him. The body was taken to the morgue and later removed to the W. R. Hamilton funeral home. No funeral arrangements have been made as yet. Mr. Krus leaves his wife and two small children, David and Harry, all of Birmingham.

(Continued 5 from Page 2)
petition, of the property owners. It appears, therefore, that all sufferers from the hay fever germ should petition for an early legislation of their needs. Mr. Parry says that he is willing and even anxious to relate in what way he can, the misfortunes of persons afflicted with hay fever and that he will direct the weed cutters to do their work in the areas reported by hay fever victims—first. Mr. Parry points out the obvious impossibility of having a weed cut denuded of its weeds on the same day.

Perhaps the hay fever victims may soon be relieved of the obnoxious and irritating pollen. And then again, perhaps, those who haven't hay fever will become suddenly and conveniently afflicted with the disease so that their weed-grown property will be taken care of first. How uncharitable! Ah-h-h CHOO!

(Continued 6 from Page 1)

Board of Auditors, and discussion of the equalization of assessed valuations in the county, may be heard on Monday.

Rumors that a petition would be presented requesting that Mr. Brewer retain his post until the expiration of his present term, Dec. 31, have not been borne out at the meetings.

The committee which will appoint a successor to Mr. Brewer is composed of Norman C. Orr, prosecuting attorney; Judge D. A. McGaffey, and A. W. Willson, county treasurer.

On Monday, at the opening of the session, a committee composed of Joseph A. Long, Bruce Leggett and Alfred Gale was appointed to draft an ordinance regulating the use of speed boats on Oakland Lake.

The discussion on equalization is expected to be held upon the submission of reports by the equalization committee composed of Supervisors Springsteen, Wardlow, Spencer, the Honorable, Irish Lamb and Higgins. Each of the assessing supervisors is expected to produce his roll for inspection by the committee.

Habeas corpus proceedings were taken into circuit court to test the validity of proceedings by the Royal Commission in closing parts of Florence, Kent, and Elmhurst streets for the new Grand Trunk right of way. Land owners took the suit into court.

Notice to subscribers in Birmingham and Oakland County, is to be mailed to \$2.00 per year after the 30th day of June. If you have not yet subscribed, please do so now, help a candidate and save \$1.00.
