A FAMOUS NAME & A FINER CAR

# Dependable... YES!

because it embodies features which assure unflinching service

The Pontiac Big Six enjoys a world-wide reputation for dependability—because it is built on big car principles and to big car standards of quality.

Its 60-horsepower motor develops maximum power at moderate engine speeds—is never over-taxed, no matter how fast or far you drive. The big main bearings are of the costly interchangeable airplane type. There is definite protection in the full pressure oiling system and crankcase ventilation which prevents dilution of the engine oil. Efficient cooling is assured by the cross-flow radiator. And Pontiac internal-expanding brakes, frequently run 30,000 miles before the lining needs replacement.

**\$745**

You know, when you buy a Pontiac Six, you are buying a dependable car.
