NO LONGER can you call an owner or builder, interested in Permanesque, a pioneer. Today, the trail to modern home construction has been blazed! The way has been clearly marked! The leaders have shown the trail to the many others who are working out their homes or becoming associated with PERMANESQUE.

To these self-styled Pioneers goes the honor, also, for having made possible many Permanesque Homes that would otherwise have been built in the old-fashioned way, for they have by the enthusiastic recommendations of their homes already built, changed many other minds to the building of this "NEW AMERICAN HOME."

Permanesque Homes are being built in fifty principal cities and their suburbs. There are several under way in Birmingham and vicinity.

If you wish to investigate, we suggest you call this office or that of an associate builder, and ask for location which you may inspect. Or we shall gladly call for you and take you there without obligation on your part.

*If you are going to buy or build, you should see
and investigate Permanesque FIRST*
