Luck Or Labor?

To the intelligent worker, today beckont with opportunity. For tuday, with its need for readjustment, for new perspective, for freshende enthusiant, offers a new economic contest—and the race will be won by the tricless, intelligent worker. Not luck, but labor, it, as always, needed.

Richard Cobden lonce said:

"Luck is ever waiting for iomething to turn up. Labor, with keen eyes and strong will, will turn up onnething. Luck lest in bod and wither the postman would bring him the news of a legacy. Lobor turns out at six o'clock and with busy pen or ringing hammer lays the foundation of a competence. Luck whines, Labor whistles. Luck relies on character."

Scrambled Slogans

Here is a nice parlor game. Have written on so of paper certain advectiving slogans. On anner ext of slaw write the names of the various adctivers concerned. Mix each set in a hat or other
speaked and draw one slap from each and comte. Here are some of the results reported by a
frommorary. Fire are wine emporary:

PRACTICALLY EVERY PERSON of any influence with shom we have talked of late is agreed that Wilbur M. Brucker, Michigan's next Chief Execu-tive, is capable of giving us varily improved govern-ment. We agree with them.

Two Michicas cirits are about to adopt mod-zoning ordinances. They are Grand Ledge and yal Oak. Some day Birmingham, roused to the centry of preserving its residential character, may a 4 similar ordinance.

A caoup or 100 CNICAGO businessmen, deter-ined to put an end to "Old Man Depression," are sing to stage an execution December 31, and simply inhilitate the darned old fool. If the Cheago citi-ns would only do as much for some of their poli-cians, who would say that a portion, at least, of coperity would not return?

CLEVELAND, Olno, MAS FOR many years been noted for its pioneering in matters of governmental orders. It now proposes a "school for city officials." This is news to bring a smile or support to those who see the need for definite training for this country's public officials. It begins appear as though the public will adopt the same seems of choosing its various officials as it does be personnel of its army and navy.

Herbert Hoover vs. John Barleycorn

Flerg's a prophecy from a dry newspaper editor. I includes a bit of guessing as to President Hoover's coming stand upon this important American Issue. We prophecy that President Hoover will soon receive a regent from the Wickersham Law Enforcement Commission, in which the Commission agrees that strict prohibition is not a practical possibility in this country at present. The Commission will we continue to guess, suggest light wens and beer, or will suggest that "intoxicating beverages" be defined in such a manner as to make legal the sale of foot per cent beed.

President Hoover, faced with a great decrease in national sincome for the next year or two, due to lack of good business times, will be forced to seek some channel of federal economy. Shall he look beyond the savings to be effected in the elimination of an apparently paralyzed law enforcing agency, plus revenues to come from the legal sale of lesser spiritious beverage!
