

(Concluded 1 from Page 1)
 approximately \$1,250, will be made to the commission. Mrs. Hope P. Halgren, executive director of the Community House, is now interviewing applicants for the position.
 The creation of the office of a village welfare worker was brought about through a proposition made to the commission two weeks ago by Mrs. Halgren and Mrs. Frederick Holt, president of the Community House board. A committee composed of representatives of the Community House and Commissioners Lawrence Hulbert, Charles E. Lewis and Walter L. Connelly investigated the problem and made the recommendation.

(Continued 2 from Page 1)
 Hainment and functioning of a proper health department for the village, and whereas this commission feels that he has made a considerable contribution to the civic welfare of this community, at least to the detriment of his own practice, therefore be it resolved that this commission accept with regret the resignation of Dr. W. C. Smith, dated 31, 1930 and that a copy of this resolution be forwarded to him upon the receipt of the hearty good wishes of the commission.

(Continued 5 from Page 2)
 views, at least that group, happily in the majority, that dares to resist the temptation to resign and ferret out mismanagement and mistakes, was given Tuesday afternoon the middle of a hectic session.
 After Supervisor Frank Springsteen, of county affairs, had won a successful battle for the payment of two additional rooming charges on illegal expenditures, Supervisor John Grant, of Pleasant Ridge, who has been one of the cranks, stunned the board and the spectator-filled corridors with a simple, yet sharply pointed, resolution calling upon County Prosecutor to determine what money has been illegally expended from the county funds and to take such action as necessary to have them returned.

(Continued 6 from Page 1)
 The water too tripped for comfortable research work.
 A score of children lined the shore, cheering the experimenters on and several motorists, curious at the sight of a young man emerging from the depths, fully clothed, holding a piece of paper, stopped to watch the proceedings.
 Friday night the young man had drawn lots to see which one of them would be "favored" to go beneath the surface. DeBerg won. Dean, who has been a diver in previous experiments, did not resist the urge to try again—and he did. Young Dean, a freshman at the University of Detroit, is one of those scientific-minded young men, as are his companions. They delight in the adventurous atmosphere of experiments. Young Dean explained the equipment thusly:
 "The idea wasn't mine. Bill Berger and Henry had built it up in my workshop in the basement we constructed. The helmet out of an ordinary solder can. We cut a rectangular piece out of one side of the pail and inserted a piece of glass, soldered in place. Then we cut a hole in the top of the pail and I suppose you'd call it a diver's helmet. I had a pump to this and tested the thing up and down, worked on the same principle as a diving suit in the water, but pushed it down in some bottoms, side-up.

Registration NOTICE
 FOR
Bloomfield Township GENERAL ELECTION
TUESDAY, NOV. 4, 1930
 To vote at this election all persons must be registered in the Township by Saturday, October 25th, 1930, at 5 P. M.
 Registration in the Village books is not sufficient.
 Citizens of the United States, 21 years old, who have resided in the State of Michigan six months and in the Township twenty days at the time of voting are eligible.
 TO REGISTER Call at the Township Office in the Municipal Building on or before October 25th, 1930, during business hours. The Township office will be open October 15, from 8 A. M. until 8 P. M. You may also register by absentee's application.
 Those registered for the election of the fall of 1928 need not re-register, unless their residence has been changed.
JAMES V. BAYLEY,
 Township Clerk.

(Concluded 4 from Page 1)
 er ship training: \$500 for Birmingham's portion of the Y. M. C. A. camp support; \$2,600 for other expense; \$1,000 for detention on former subscriptions, and other items for supervision and direction of the innumerable Y. M. C. A. activities.
BUYS SERVICE STATION
 The Quarton Lake Super-Service Station on Woodward avenue at Quarton road, had been purchased from George Mitchell who has operated it since it was opened to the public last year, by H. Harrack. Mr. Harrack announces today.

 ducted in all village schools on the subject of fire prevention, and it is hoped that 2,000 children or more will enter their compositions. Prizes for the contest winners are now on display in Studebaker Store.
Suggests Change Of Mind To Bring Better Business
 Atmosphere, defined as "influence, mental or moral, exerted on a person's environment," is the cause of the present business depression, and only the individual's improved mental attitude towards buying can improve the condition. The Rev. Warren L. Forester, minister of the St. James Episcopal Church, told members of the Birmingham Lions Club yesterday noon at their regular meeting in the Community House.
 "Business must react to the immediately to the situation of buying," he said. "For it is only through demand for products that increases its production and its consequent purchase. The mental attitude of the individual (as you today) that the bankers cannot come to the rescue."

 Explaining his resolution, Mr. Grant said: "There has been a great deal of discussion and references to large amounts of money being illegally expended. But there is no action about it. If any of the county funds were illegally spent I would be very glad to see them returned."
 He was strongly supported by Springsteen, who declared: "I know Mr. Grant is right, and Mr. Orr, the prosecutor, knows absolutely that money was illegally expended."
 Someone in the room started the name of applause, then above the noise a voice was heard:
 "We seem to be getting nearer and nearer a grand jury investigation."

Tried It Out First
 "When we were sure the helmet was air tight, we took it, with the sash weights, to the lake where we tried it out. First we weighted the helmet down with four of the sash weights, damping from the pail. Then I put on the belt with about a dozen similar weights. And while Henry was outside, I worked on the same principle as a diving suit in the water, but pushed it down in some bottoms, side-up.
 "I tried it out first. The helmet was air tight, we took it, with the sash weights, to the lake where we tried it out. First we weighted the helmet down with four of the sash weights, damping from the pail. Then I put on the belt with about a dozen similar weights. And while Henry was outside, I worked on the same principle as a diving suit in the water, but pushed it down in some bottoms, side-up.
 "We don't go out into really deep water yet because we realize the danger of great pressure when we have on only our regular clothing. But down about 12 feet it's swell. Of course, Quarton Lake isn't ideal for the experiment. The bottom is very muddy and you have to stand still, until the mud settles. Then you can feel a lot. You'd be surprised how fast you can see."

PIGGY WIGGLY
 It isn't necessary to hurry in a Piggy Wiggly Store—there are no clerks to bother you. Just help yourself from the smiling shelves. Shop as slowly or as quickly as you please.

(Concluded 6 from Page 1)
 Those who voted for the resolution: Southfield; Cook, Michigan; Owen, Orionville; Leonard; Gale, Waterford; Pleasant Ridge; Hamilton, Northville; Harmon; Clark; Clarkston; Lamb, Farmington; Leggett, Pontiac; Long, Milford; McClure, Rochester; Milford; Porritt, Pontiac; Springsteen, Royal Oak; Tindall, Clarkston; Wardlow, Highland, and Therington.
 Those who voted against adoption:
 Armstrong, Pontiac; Bradley, Holly; Campbell, Royal Oak; Gibbs, Rochester; Lyon, Orion; Kennedy, Ferndale; Lawson, Royal Oak; McRae, Royal Oak; Miller, Troy; Newton, Birmingham; Seelye, Holly; Smith, Watson, and Stark, Ferndale.
 Adoption of this resolution and of the two submitted by Springsteen, gives a fairly accurate idea of the superior attitude on thorough airing of county affairs. Springsteen's resolutions, having to do with specific cases where a investigation is in order, were adopted by slightly larger majorities.
 Grant voted against one of the Springsteen resolutions, explaining his adverse vote was cast because he thought the resolution did not have "teeth" and that "teeth" were needed.
 Little Action expected.
 However, it is hardly likely that an investigation such as directed in the Grant resolution will do more than result in a survey of expenditures of county funds as those expenditures appear in the records. It is certain that the Prosecutor will not go so far as to conduct an examination of individual employees in various departments. His investigation, or whatever form his inquiry takes, most likely will be purely one of records and figures. Moreover it is certain that the Board of Supervisors cannot embark upon an exhaustive inquiry. They have made, in the past, through their Ways and Means Committee, an effort to learn something about certain specific cases, but these committee reports have not arrived annually.
 Oakland County needs a high-powered efficiency expert, an arduous economic sharp-witted investigator, a courageous outsider and perhaps a couple of conscientious auditors to search out the offenders and the offenses, determine what and who may be held responsible, and set up measures of protection against further inefficiency, waste, grab-bags, favoritism and spendthriftism.
 It is possible that such a committee in the County. The sooner they are brought together and put to work the sooner Mr. Tanager will be able to lie in untroubled sleep.
 Numerous supervisors, as well as leading bankers, attorneys, farmers, merchants, and real estate brokers have been interviewed on this subject. They are of the belief that there should be set up a Fair-Dealing Committee, composed of possibly three supervisors, and four representative citizens, such as a banker, newspaperman, attorney and agriculturist. The supervisors would be paid at the regular rates while the citizens would serve without pay.
 Such a committee, given full authority to act, and provided with the necessary facilities, to hold public hearings, to make a thorough investigation and survey of every department and institution, then to submit its findings to the Board of Supervisors for action.
