Manager Of Casualty Dept. Of Detroit Agency Addresses Rotarians

J. W. Callahan, manager of the casualty department of the Detroit office of the Traveler's Insurance Co., as the guest of J. B. Howarth, spoke before Birmingham Rotarians Monday noon upon the subject of insurance risks, and pointed out during his talk the necessity of knowing the contents of a policy. "Failure to

It was Mr. Callahan's contention that most people fail to acquaint themselves with every detail of a specific insurance policy, resulting in eventual disagreement between the company and

"There is nothing that an insurance company dislikes to do any more than to tell a policyholder that a policy does not cover the circumstance under discussion, in the event of theft or accident," said Mr. Callahan. He also advised that all insurance agents not only be required to state what their policy may cover in a certain case, but what it does not cover.

COMMISSION ACTS ON TWP. FIRE PROBLEM

Formally Moves To End Service If Agreement Is Not Reached By Sept. 15

Formal action on the township fire protection problem was taken Monday night when Commissioner Robert H. Allen moved to deny further fire protection services to outlying districts in Bloomfield, Troy and Southfield townships after Sept. 15, unless an agreement between the three townships is effected before that time.

At a meeting last week of representatives of the township and Birmingham, an ultimatum was presented by the village, to the township, threatening to cut off the service unless an arrangement, acceptable to the village, was made. The problem of giving service to the townships while the village was left unprotected from the township, during the past three years, has been discussed on numerous occasions but no definite agreement has been reached.

Members of the township board have been told that Birmingham is willing to continue service to their outlying districts in the future unless provision is made whereby Birmingham may add to its equipment and personnel of its department for use in giving fire protection to the township at the expense of the township.

CONTAGION DROPS TO LOWEST MARK

Only Five Cases During August Reported By Health Department

Contagious disease in Birmingham reached a low point in August, with only five cases reported to the Department of Health, according to the monthly report filed by Mrs. Olga Benning, public health nurse, and Dr. A. W. Newitt, health officer. There were three cases of measles, one of whooping cough, and one of mumps, the report shows.

Many patients were referred to physicians and hospitals for treatment, as follows: 23 were sent to their family physician, 14 to the physician for the poor, 26 to clinics, nine to general hospitals, five to Grace Hospital, two to the dentist, 11 to the Oakland County Superintendent of the Poor, 16 to the Oakland County Department of Health, and eight to the University Hospital.

JUSTICE HUNT MAKES REPORT

Fines totaling \$130.20 were collected in the court of Justice Malcolm Hunt during August, according to the monthly report compiled today. One man was arrested for driving under the influence of liquor, but his case was dismissed. Three men paid fines totaling \$46.50 for reckless driving for disorderly conduct, and a seventh man was committed to jail for the same offense. Of his arrests for speeding seven men paid fines totaling \$160 and one case against two who were dismissed for violating the traffic signal ordinance were also dismissed.

SEEK SOLUTION TO CAB PROBLEM

Committee To Probe Report Taxicab Entrances

Commissioner Robert R. Allen, Monday night reported to the committee that a change in the location of one of both of the taxicab stands on Woodward and Maple avenues apparently has become necessary because the vehicles blocked the street at entrances to both the Eastman Drug Co. store and the Birmingham Department Store.

An investigation of the situation will be conducted by the police and the committee in the next future, it was decided.

Miss W. Parry village manager declared that one of the reasons for the present congestion of automobiles at the entrance to the stores was caused by the presence of the hydrants there. No need for a ordinance prohibiting parking within 15 feet of the hydrants and within the 30 feet would provide ample space for 200 additional cabs near these hydrants, J. W. Parry, village manager, declared.
