We Heard It Said By—

Gay Jensen, of Madison Ford, said: "We hear a lot about politics in this country, and some of the things that are given me, if this is true in a land so enlightened as the United States, what conditions must prevail in other countries?"

James W. Taylor, of Berwyn road:

"One of the greatest needs in our country today is a more active participation in the affairs of government by intelligent, honest citizens. Let us not come into any form of government get there only because of a lack of public interest and action."

Pete D. Ariosto, of 15 Levinson building:

"I am proud to see our present day civilization, in spite of the great scientific progress we have made, is still so primitive and unfinished compared to that of cultural and brilliant, Old Athens."
