With the entrance of Oliver Kniff-gnaw, noted inventor, as the sole Ballyhoost opponent of Lem Lawfette for the Poundmaster-ship, assumed the spectacular proposition of an elephant with the stamp.
Lem, who is announcing his platform of the annual picnic of non-union horse-car operators in Baldwin Park, Lake Day, week was received that Oliver Kniff-gnaw had entered the race in a side green track suit; but as also announced that, Clamblake, when confronted with deck-edge evidence, blarneyed invisibly and countered with the announcement that he would not be a candidate to elect himself.

An eccentric photographer who happened to be in Claude's office taking pictures of an escaped prisoner, snapped his remarkable picture of Claude explaining the situation to his stenographer, Miss Neatide, Wallflower. Miss Wallflower, more commonly known as "Boots," accepted the inevitable with all the self-control of an anxious hostess, and a dignified, dignified counter, drew several veils of pink-tinted waters being dunked in and between the pair listening to the speaker, rushed a long-haired, bespectacled boy with the starting-announcements.

2,255 STUDENTS ARE ENROLLED

Registration Figures Not Complete But Excel 1929 Total
Two thousand two hundred and fifty-five students were officially enrolled in the Birmingham public school system during the first two days of registration according to figures furnished by the Superintendent of Schools, Clarence V. Hart. The registration is not final because of the large number of town and have not yet filled out schedule cards. Forty registrars are yet undilled at the high school, Principal Melvin C. Hart announces. The present total is 2,255, which is a record for the last year and Superintendent Velt believes that before registration is closed last year's total will be exceeded by 80 pupils.
Because of the new Barnum building and the redistricting of the city, there is a considerable increase in the number of enrollees although the Querschedt school on an enrollment of 282 exceeded its last year's total of 300 pupils. At the Baldwin high school in this respect more than 50 new students have registered while throughout the village the total number of enrollees is expected to exceed one hundred.
The new Barnum school which opens its doors for the first time, Tuesday reported a first-day registration of 489 to rank after Baldwin high in the total number of registrants. Adams Junior High school again led the village with a total enrollment of 690 pupils. A number of new students were also enrolled at Adams Junior High.

Due to the record entry at the high school many classes were crowded and, instructors say, it is necessary to drop some students from the roster in order to accommodate all pupils in the same classes.
The advanced civics classes at Baldwin reported an enrollment of approximately 100 pupils and the room will seat but 30 pupils it will be necessary to readjust the schedule of some students.

BOOFEELD HILLS OFFICER RESIGNS JOB

Martin, Wires Resignation Under Singular Circumstances
BELIEVED WITH KING
Patrolman L. A. Martin, 37 years old, a member of the Bloomfield Hills police department for the past two years, resigned suddenly on Saturday, wiring his notice from Jackson, Mich.
Patrolman Martin's sudden and unexpected resignation astonished few members of the force and his wife, Mrs. L. A. Martin, 3755 Broadway, Birmingham. Although Martin's whereabouts are not known, Mrs. Martin last night had gone to the home of a sister at a town called Martin, 18 miles from Kalamazoo.

The first that was known of Martin's disappearance was his resignation. Chief William Putman received a telegram from the officer, announcing his resignation. Martin, who was to have been paid that day, had not collected his money, and the captain had no information in his locker in the station.
Chief Putman then learned that the captain had told him earlier in the day that he had been assigned to go to Springfield, and had asked her to let him pack his suitcase. The next she heard from him was through a letter to Chief Putman in which he declared he would not return because he could not find his wife earlier in the day that he had been assigned to go to Springfield, and had asked her to let him pack his suitcase. BOWLING BAN ON SUNDAYS UPHeld 6 TO 10

Commission Denies Petition Of Chapman To Operate On Sabbath
PROTESTS ARE HEARD
As a result of a six to one vote by the township board of trustees, the township board will not permit public bowling on Sundays. The decision of the township board was made after a heated debate of the subject and the protests of representatives of the Y. M. C. A., the W. O. U., and other institutions and individuals. Commissioner Walker Connelly was the only one of the four members of the township board who originally supported the petition of Russell Chapman to permit public bowling on Sundays, which was voted to support him.

When the hearing was first held on the petition, Commissioner Walker immediately moved that the petition be denied. "I was not in favor of the proposition," he declared.
President Harry Allen then reported on an amendment to the present ordinance prohibiting public bowling on Sundays had been introduced by the township board. Village attorneys explained that billiard and pool halls were provided for in the ordinance. President Allen then said that he thought the expression of the township might be favorable to the proposition.
