lower of the Republican party. Mr. Springsteen did show some judgment, and I hope, also, that by learning his party's aims and objects, Mr. Springsteen may become a better member of government.

Fixed By Board The third criticism Mr. Springsteen directed toward me and the Road Commission was that I had been overpaid during my six years as a member of that body.

Coolidge Highway Answer The suggestion that some of the roads we have built in Oakland County are good, while others are not, is mentioned in an article of his in the Coolidge Highway, south of Berkley.

Mr. Springsteen's criticism of the Road Commission, do not agree with him in this contention. Coolidge Highway is a standard road as far as cement construction is concerned, and was built by the R. D. Baker Company.

Mr. Springsteen mentions that the Road Commission gave the R. D. Baker Company a contract to pave the Fourteen Mile road, from Woodward Ave. East to the County Line, even though Baker's bid was higher than that of another

contractor, Meredith & McVaugh. Mr. Springsteen had in view the fact that the Oakland County Board of Supervisors, as well as any other legitimate branch of our government, must consider the price when it contracts for the building of huge public projects, such as roads, bridges, buildings, etc.

It is this other matter which is just as important as price is in the case of a contractor. The R. D. Baker Company's Fourteen Mile road was because, from investigation we had made, we felt that a very responsible Oakland County firm would give Oakland County taxpayers the best value for the money we had to spend.

Mr. Springsteen's criticism of the Road Commission, would be well, that would not be wise—for he occupies the present position as Royal Oak Supervisor to them.
