OF FORD VALUE

Bright, enduring

RUSTLESS STEEL is used

for many exposed bright

metal parts of the Ford

WHEN YOU BUY a Ford you buy enduring beauty. The body finish is made to last for the life of the car and practically all exposed bright metal parts ex-cept the bumpers are made of enduring Rustless

Steel, This Rustless Steel has great tensile strength. It is the same bright metal all the way through. A salt test equivalent to forty years' service under the severest weather conditions failed to have any effect on its brilliance. It never requires polishing. All you do is whose it with a damp cloth, as you do your windshield.

This is just one of words.

windsheld.

This is just one of many features that show the substantial worth of the Ford. In speed, com- of fort, safety, economy and long life — in the richness of its finish and upholstery — it brings you everything you want or need in a motor car at an unusually low price.
