No! All Cars Are Not Alike—

Essex is a Super-Six With Exclusive Features of Super-Six Design and Super-Six Performance Selective FREE WHEELING Further Emphasizes the Difference

All who know the facts recognize that in performance, smoothness and reliability the Super-Six principle gives Essex a distinction that cannot be likened to any other car. With it, vibration is reduced to nil. No motor was ever so well known. None has ever shared its fame for reliability. On that one score Essex, because it alone can give the Super-Six, stands distinctive in the six-cylinder field. But the difference is not limited to its Super-Six motor and Super-Six performance. Now Essex includes Selective Free Wheeling. That adds another joyous motoring sensation. Driving takes on a new zest. You free wheels in traffic to the almost total elimination of gear operation. You shift gears in utter silence without need to use the clutch. In its price field it is also the largest car. It is inches longer—seats are inches wider—leg room is greater—and everyone who examines it closely also finds it more carefully and finely built in respect to chassis detail and body appointments. In these days men are critical in their purchases. It is well to inquire into the facts and to know just how deep and well-grounded are the qualities they seek. Essex quality goes beyond its motor, fittings and upholstery. It goes to the very foundation. Isn't it a great satisfaction to know that you can get such assured quality in a car so easy to own? No, all cars are not alike. Coach or Business Coupe \$595, Standard Sedan \$695, Sport Roadster \$725, Town Sedan \$735, Touring Sedan \$755, Special Sedan \$855, 7-Pass. Sedan (four wheel base) \$895—Selective Free Wheeling \$35 additional. All prices f.o.b. Detroit—special equipment extra.
