That you give your whole hearted support to your school faculty in their aim:

To develop individuality and character in the student body.

To meet by a course of study the demands of the vocational life of the community.

To fit for higher education college students as desired.

To educate and train our children so that they can serve their purpose.

The committee regretted that at the school Board Meeting of Jan. 12, the Board should rescind their decision in regard to the school hours.

We wish to state emphatically that our only motive was to know our schools. We have had such an interesting and profitable time.
