HOW would you like to have in your kitchen a magical refrigerator that made all the ice you could use... without machinery... without a whisper of sound... at a fraction of what you pay for ice now? That describes Electrolux. A tiny gas flame... a mere trickle of water... freeze pure sparkling ice cubes and desserts quickly, chill salads and drinks perfectly, and provide a constant refrigerating cold that keeps food fresh and wholesome for days and days. And at a cost that is less than the wholesale price of ice. With no machinery... no moving parts, science has been able to find no reason why Electrolux should not last a lifetime. Or why it should ever become noisy.

Be fair to yourself by not deciding on your automatic refrigerator until you see Electrolux. Come in and examine the variety of beautiful cabinets in our display. And ask about easy terms.
