Large Skating Rink and Club House in Winter Park

Preparations for the annual Mid-Winter Sports Carnival at the resort have been well advanced for the expected rush of winter sports enthusiasts in February. The famous summer resort region is rapidly becoming equally popular during the winter time.

Highways leading to the city no longer are the snow and ice covered trails that have been fairly impassable in former years but have been transformed into wide, smooth roads banked with snow. A new, double-track toboggan slide which winds its way through the pine in the north end, an added feature of the resort this season. There are three skating rinks, one constructed exclusively for hockey.
