

STUDENT COUNCIL CHIEF RE-ELECTED

Bill Hutchinson First Repeater in History Of Baldwin Junior High School

For the first time since the organization of the Baldwin Junior High School student council a president of the group was re-elected to office when Bill Hutchinson won the student vote held Tuesday by polling 81 votes to lead his nearest rival by a plurality of 24.

Ted Hufford won the office of vice-president when he more than doubled the total number of votes his opponent received. Maxwell

WE HEARD IT SAID BY James W. Perry, village manager: "The new Grand Trunk rapid transit will bring more growth to Birmingham in the next five years than we've seen in the last 25 before."

Matthews was elected secretary-treasurer.

The trio chosen Tuesday will be inaugurated next fall to begin the seventh semester of Baldwin Junior High school's student council rule. Miss Lois Hicks and Mrs. Goldie Hotschek are the faculty advisers of the group.

Officers of the council who will end their duties this June are Bob Savage, vice-president and Jane Brede, secretary-treasurer.

BARNUM STUDENTS PRESENT CONCERT

Bands, Vocal Classes And Puppet Shows presented by the Barnum School

The first annual Barnum combined Junior High and grade school concert was presented in the school auditorium last evening under the direction of Mrs. Edith Roach Corryell, instructor in vocal music at Barnum School.

An exhibition of student talent in the primary grades was demonstrated by the appearance of a first and second grade chorus. Three puppet shows, "Mikado," "Robinson Crusoe," and a reproduction from the "Black and White Minstrel," produced earlier in the year by Barnum students, were featured of the program.

Students from the grades at Barnum participated in group singing of songs based on special subjects, and the vocal music classes also presented a program of vocal selections.

Prizes in the special program, instrumental selections were played by the Barnum Junior High School band, playing under the direction of A. W. Bennett, director of instrumental music in the village schools. A harmonica band composed of both Junior and high school students, completed the instrumental portion of the program.

Miss Dena Hallock was faculty accompanist and Lella Tseple, student accompanist. The construction of the puppets and stage scenery was done in the manual training classes of Barnum School under the direction of Alfred Schalm. The scores for the puppet production were written by members of the vocal music classes.

Mr. Car Owner

Here is what Race Drivers with Life and Victory at Stake have decided about Tires

FOR twenty-one years the Indianapolis two and a half mile circuit has been rounded by a concrete wall to keep the cars from dashing off, has been the crucible where at white heat automobiles and tires have been tested. Thousands of men have risked, and some have sacrificed, their lives, and manufacturers have spent millions of dollars to the end of making better automobiles and better tires.

Louis Schneider and mechanic on Saturday won this race in a heavy 8 cylinder car. He made an average speed of 96.629 miles per hour—the on the straightaways and in passing cars he touched 140 miles and better. He drove on 6.00-20 Firestone High Speed Tires with racing tread. He had no tire trouble.

He used Firestone Tires because Firestone experts and engineers have through twenty-one years taken this race as a challenge to tire making. From this race they have developed these vital improvements which have given to Firestone Tires the world leadership in safety, mileage and endurance.

The Gold Standard of Tire Values

World's Records

- Firestone Gum-Dipped Tires hold all world's records on road and track for safety, mileage, speed and endurance.
- for twelve consecutive years they have won the 500-mile Indianapolis Endurance Race.
- were on the winning cars in the Pike's Peak Race where a slip meant death.
- were on the C.M.C. Truck, carrying a two-ton load, that hung up the coast-to-coast endurance record.
- were on the Studebaker car which on a board track in Atlantic City in 1928 went 30,000 miles in 26,326 minutes.
- on 125 buses of the Washington Electric & Railway Company, ran 3,674,266 bus miles during 1930 with only 13 tire delays.
- on 150 trucks of the Safeway Stores, Inc., ran 1,500,000 miles in one year without one single hour of delay on the road.

1. **Gum-Dipping.** Tires had to be stronger and able to stand the heat of a hot red-brick track at high speed. Firestone met this by developing and perfecting the dipping of cords through a rubber solution to insulate each fiber of every cord to overcome heat and give the cord greater strength—and 58% greater flexibility. This is the patented Gum-Dipping Process used in the making of every Firestone Tire.

2. **The Balloon Tire** was developed by Firestone to permit greater speed with comfort and safety by increasing road grip and absorbing shocks. It was made possible by the added strength and flexibility given by Gum-Dipping. In the 1925 race, some of the drivers tried the then new Firestone Balloons. The others stuck to high-pressure tires. Peter de Paolo on Firestone Balloons made a world's record. All the prize winners came in on Firestone Balloons—Now the balloon tire is everywhere the standard.

3. **Double Cord Breaker.** The higher-powered cars and the step-up in speed demanded a still more tire toughness. At one hundred miles an hour, the circumference of a tire increases by more than 10%, and this, added to the centrifugal force, tends to throw off the tire tread. Firestone met this by developing the Patented Double Cord Breaker which gives a 56% stronger bond between the tread and the tire body and also gives a 26% greater protection against punctures and blowouts.

These are some of the great lessons that Firestone has learned on this racing track. And so the men whose lives and fortunes depend on knowing tires always buy Firestone Patented Gum-Dipped Double Cord Breaker High-Speed Tires.

There were 72 entries. Of these, 40 survived the elimination trials—and every one of them was on Firestone Tires. And every tire was bought and paid for.

We give you the benefit of all the lessons Firestone has learned from these races. You can get from us all the strength and safety in tires that the racing drivers buy.

Take advantage of our liberal trade-in plan. Avoid the risk of blowout, accident or delay. Prices on these World's Record Tires are the lowest in history. Come in Today.
