SPRING SPORT PROGRAM IS BEING PLANNED

Cocher Whitney Now Outlining Baldwin's Track and Tennis Cards

BETTER NET TEAM SEEN

Although no schedules have been announced, plans are being made at Baldwin High School for the spring sports, which this year will include both two sports, track and tennis. Track, it is expected, will be the major sport of the spring season, as it will take the place of the recently abandoned baseball. Tennis will gain added impetus from the loss of basketball as two or three varsity ball-players are expected to join the net team.

Cocher Whitney is making preparations for track as soon as the intra-mural basketball program is completed. In connection with track plans Mr. Whitney has announced his training program.

In common with many other coaches Mr. Whitney believes in little or no training track while he discourages use of tea and coffee as he asserts that "by the time a boy is ready for inter-scholastic sports he should know what food to eat and what not to eat." Consequently he does not bar these from the list of foods for track athletes.

Cigarettes frowned upon. Eating between meals, however, is a practice he discourages. Milk and fried foods are usually banned on days of competition, as they weigh heavily on the stomach, and are particularly bad for track men. Poached eggs on toast usually form the only meal of the Whittney-men just before any athletic contest.

Regarding other training rules, the coach is more strict. Smoking is heartily discouraged, but Mr. Whitney also believes that a varsity athlete should be wiser than damage himself during training periods by smoking, and usually leaves the decision to the
