If You Ask Me--

By Marge Hall
It took the only representative of the Farmer-Labor party in the United States Senate to urge an extra session of Congress to "remove the evils of the depression". Before the summer is over an extra session may be imperative. Sometimes it is better to do things a little before they have to be done. Waiting until the dead-

line is poor policy, in any business.
"Men are not afraid to die. No one ever has to be carried to the electric chair. Execution has not proved the deterrent to murder which its advocates hoped it would." The Sing Sing prison chief physician has said, "What could be truer?" That is the thing about overpopulation. Life means nothing to them, one way or the other. They will take the longest chances. Kill, or be killed, what is the difference? They cannot think so far ahead as to visualize consequences and see even beyond the chair. They do not believe in anything they can't see with their two physical eyes, at least not far enough to have it mould every action of their day and night. A wind in April. Blue squalls. Drifting snow. A crescent moon. Dancing shadows. Nothing means anything to them. But to others, who know full well they could not create life vultures deep in the spring woods, well, why should they crash anything under their heel? Guns should be only for authorized police to check those who run amuck in any hoodlum now can buy a gun at the corner store, and brandish and shoot to kill.

NASH

The finest quality Nash has ever built

FOR fourteen years, Nash has been consistently raising its quality standard and its standard of value. In no other cars, however, has Nash been enabled to advance both quality and value as far and as high as in its four series for 1931. That original approval has widened and deepened as the four Nash Sixes and the eighteen Nash Eights became more and more commonly spoken of as the greatest values in their fields. In one or all of these models you will note increased horsepower, longer wheelbase, insulated bodies, centralized automatic chassis lubrication, extra quality upholstery, and many other features—at the lowest prices ever placed on cars of such pronounced quality. Drive in—let us demonstrate.
