At The Center Of The Village

Birmingham has been aptly termed a "two-street" community. It has two business thoroughfares—Woodward Avenue and Maple Avenue—one a transient and the other our own, the only east and west thoroughfare in the village.

The progressive trend is along our own local avenue. And on this avenue, not far from the cross-roads, more nearly at the center of the village, is the Wabeek Building! And it is at the center . . . for around this Community of Shops, Stores and Offices is the Municipal Building, the Library, the High School, the Community House, a greater number of churches and toward the west is the greater percentage of homes.

The Wabeek Shops offer easy accessibility from every direction and yet, they are sufficiently removed from the noise and congestion of traffic to permit the transaction of business amid quiet and restful surroundings.

To Add New Interest to your Garden

- A rock garden
- An informal pool
- A dry laid stone wall
- A perennial border

Let us make a suggestion as to how one or more of the above features might be incorporated in your garden plan. Our service includes the preparation of authentic landscape plans for new gardens and for the re-arrangements of natural plantings. The combination of choice material, proper planting, and careful supervision bring results that satisfy, at moderate cost.

ORIGINAL FEATURES

1. The Rollator—perfection achieved in the rotary compressor.
2. Watervalv—for drinking water—rational and a saving capacity.
3. Porcelain-ice compartment door, spring hinged, tight sealing. Keeps food odors from penetrating the cabinet and keeps moisture from ice trays, preventing them from "flooding."
4. Capacitor motor—in a normal refrigeration in all climates.
5. Dry Zero, most efficient insulation material known—rated 100 by United States Bureau of Standards—used throughout the Norge.

Sorry, we haven't space to list all, but anyway, come in and see the entire line.
