2 GIRLS, FATHER HURT IN CRASH

Suffer Minor Injuries In Collision Sunday On East Maple Road

Two small girls and their father were injured, though not seriously, in a collision at the corner of East Maple and Crooks road at 5:30 P. M. Sunday.

The crash occurred, according to Deputy Sheriff Elmer Ford, when a car driven by Fred Remick, 35 years old, of R. D. 4, Birmingham, struck a second machine driven by Clarence Vance, 44 years old, of 244 South Jessie street, Pontiac, as the latter was making a left turn off Maple road onto Crooks.

Remick was rendered unconscious and suffered a contusion of the scalp. His daughter, June Remick, six years old, was cut on the forehead and chin. Another daughter, Eva, three years old, was cut and bruised.

The injured were treated in Birmingham by Dr. C. F. Lawler and later removed to their home in the Kimball-Bailey ambulance. Neither driver was held.

HITS GREED OF ENGLAND

Native Of India Sees Selfish Motive In British Domination

"India's present troubles have been caused by influences exerted upon her people by European countries, chiefly England," and the reason for British domination is simply the fact that, in terms of dollars and cents, it is good business for Great Britain to keep India a subject nation."

That is what Dr. Nur M. Malik, Detroit physician, who came to the United States in 1920 from India, told Birmingham Rotarians at the Community House here Monday noon. Dr. Malik was the guest of Rotarian Walter L. Connelly, in charge of the program for the day.

Dr. Malik, himself a Mohammedan native of India, narrated the history of his country, which contains 325 millions of peoples, embracing an area as large as entire Europe, exclusive of Russia. He said that India's history dates beyond 5,000 years ago. Up to within about 500 years ago India was self-governing, its various provinces ruled over by Princes. The Princes met in a central form of government, something like the United States today.

"But explorers and adventurer's from other lands, from the Dutch, the French, the Portugese, the English, the Scandinavian countries, seeking the 'wealth of the Indies,' landed upon India's shores, and then began the destruction of the central government," related Dr. Malik.

"In the process of the destruction of the centralized government, quite naturally human cupidity and greed played its part, until the dominant invader nation had finally disarmed India, set it to fighting internally, and then stood by and collected various forms of tribute.

"Personally, I do not expect India to gain her independence for many years to come, perhaps several centuries," went on Dr. Malik. "Mahatma Gandhi is trying to gain India's liberty from England, but he will not be successful, and he knows this—simply because it is too much to expect any nation to give up voluntarily its hold on the wealth and resources of a subject country."

Dr. Malik said there are two religious divisions of Indians, the Mohammedan and the Hindu. The former are of the valorous warrior type, while the latter, of which Gandhi is a member, are philosophically and commercially-minded. There are about 500 native-born Indians in Detroit, and Dr. Malik has served them several years as president of their society.

Civic League Head To Speak Sunday On Political Ills

William P. Lovett

"What's Wrong with Politics?" is the subject of an address to be given at the Baptist Church here Sunday night by William P. Lovett, for 15 years secretary of the Detroit Citizens League. He is the third in a group of four laymen delivering a series of addresses at the regular Sunday evening service of the church this month.

Mr. Lovett has been president of the National Association of Civic Secretaries for the past three years, and is a member of the council of the National Municipal League. He was president of the Michigan Baptist Convention from 1927 to 1929.

$8 Stolen From Baldwin Library

About $8 in change was stolen from the desk in Baldwin Public Library by thieves who Friday night gained entrance to the building through a side window. Since the window is one which was never opened under ordinary circumstances, library attaches believe the thieves unlocked it from the inside during the day.

Police believe the theft was committed by the same persons who entered a basement window at the Community House Tuesday night of last week and ransacked the building but took nothing.

On the same evening, $2 in change was reported taken from a pocketbook lying on a table in the Community House.. It is believed the thieves were in search of the proceeds of a banquet being held in the building at the time.

Detective Joseph F. MacGregor is investigating the thefts.

WE HEARD IT SAID BY—

Village Manager James W. Parry, who attended the convention of the International City Managers' Association last week in Louisville, Ky.: "The welfare relief problem was the principal subject for discussion at the convention. It appeared that the greatest need for welfare relief is centered in the Middle West," he stated. "There is comparatively little need in the West, not much in the South, and almost none in the East."

But Don't Go Near The Water

"You remember when you cured me of my rheumatism a couple of years ago, Doc," asked the patient, "and you told me that I should avoid dampness?"

"Yes, that's right," replied the doctor, approvingly.

Protecting your home and family 24 hours a day

A telephone in your home is more than a convenience. It is an ever-ready safeguard to protect your home and family in times of emergency.

In case of fire, for instance, a telephone will enable you to summon aid immediately, without having to run to the next corner. Property and lives have been saved frequently because there was a telephone handy to summon aid.

When sudden sickness or accidents occur in the middle of the night, it is important that medical aid be summoned at once. With a telephone in the house, a doctor can be called immediately.

The cost is low—you can have the protection and convenience of a telephone in your home for only a few cents a day. To place an order, or for information, call or visit the Telephone Business Office. Installations will be made promptly.

STANDARD RED CROWN

HERE is the news you've been waiting for—hoping for—wondering whether you'd hear it this year or next. The news of a NEW GASOLINE—a BETTER GASOLINE. Mark that last phrase! That which is new is not always better. But Standard Red Crown is NEW and BETTER. We introduce it to you as the best all-purpose gasoline ever put on the market. And we've anticipated some of the questions you'll want to ask about this brilliant, sparkling, modern fuel. From now on you'll hear plenty about Standard Red Crown—plenty of praise for a fuel that gives you more for your money—easy starting—more power—more performance—more miles.

Read these questions and answers—and then drive to the nearest STANDARD RED CROWN sign—for your first filling of "The Better Gasoline"

What is Standard Red Crown, the Better Gasoline?
A gasoline in which the fractions are so adjusted to weather conditions as to give a smooth flow of power at any season of the year.

What are fractions in Gasoline?
They're the compounds taken from petroleum each of which vaporizes within definite temperature limits. The skillful merging of these fractions and adjusting the proportions to meet different weather conditions make good gasoline.

What happens if these fractions are not properly adjusted? The engine may perform satisfactorily under one set of conditions but not all. For example, in winter good gasoline requires large amounts of light ends to give quick starting and satisfactory performance, but in summer too much of these light ends causes vapor lock troubles.

Is Standard Red Crown a natural product?
No. Nature is not concerned with producing an ideal gasoline for automobiles. It must be made by skillful men. Standard Red Crown owes much of its anti-knock value to the use of the improved cracking processes developed by the Standard Oil Company (Indiana).

How is Standard Red Crown made?
Under processes developed in the research laboratories of the Standard Oil Company (Indiana) utilizing the tremendous refining facilities of this organization.

Is Standard Red Crown a NEW Gasoline?
Yes. It has just been put on the market.

Why do you recommend it for winter driving?
Because it starts easily and accelerates smoothly and because it can be depended upon to operate smoothly in the engine and deliver a rhythmic flow of tremendous power.

Why is Standard Red Crown recommended for 1931-32 cars? Because it is designed to respond to the delicate adjustment of the latest type engines—because it performs better in the older types—because it burns clean at any speed—because it's priced to meet current economic conditions. It gives maximum performance at a moderate price.

Where can I buy Standard Red Crown Gasoline?
Standard Red Crown is sold where the Red Crown emblem is displayed. It is priced for the average pocketbook—but gives maximum performance.
