EXCHANGES HER PARRY

Manager Says Birmingham's Financial Condition is Highly Satisfactory Birmingham's financial condition, though badly crippled by the effects of the depression, is highly satisfactory in general. Village Manager James W. Parry assured members of the Birmingham Exchange Club at their regular weekly meeting in the Community House Tuesday noon.

Mr. Parry's address, arranged for by Village Commissioner Fred L. Tucker, was one of a series planned by E. W. Osborne, president of the club, maintaining relations to governmental, school and other public affairs. Next Tuesday's meeting will be devoted to an open discussion of the problems arising presented by the depression.

Mr. Parry pointed out that Birmingham's general bonded indebtedness is about \$6,000,000, or only about 35 percent of the legal limit. Each municipality, he said, is bound to issue bonds for the amount of 10 percent of the assessed valuation. Birmingham's valuation is about \$25,000,000.

Civic Center Costly Of this debt, he said, small amounts are repaid. The city issued for the fire pumper, corporate funding, and bridge and pavement \$14,000 by such bonds, and the remainder, or about \$50,000, by bonds sold to finance the investment in the civic center.

Besides the general bonds, the speaker continued, the village owes \$153,000 as its share of special assessment bonds, and \$204,000 in bonds issued against the water department. Neither of these are chargeable to general taxes, since special assessments are liens against individual property and the water department is a self-supporting branch of the municipal government.

General bonds are being retired at the rate of about \$73,000 a year, Mr. Parry said. With the tax rate at \$15.50 per thousand as it is this year, about \$5.25 goes for bond and interest charges and remains for operating expenses, he estimated. Foresee Little Tax Reduction Even though he does not believe the village will be pressed for extensive local improvement for the next few years, the speaker said he does not look for any material reduction in the tax rate.

"More and more," he said, "governmental agencies are being required to perform services which are not governmental at all. We hear considerable objection that taxes are too high, but I am not sure that taxes ought to come down. When I consider, in my own case at least, what services I am called to perform, I am convinced I would be unable to get them any cheaper for less money."

He declared that the village budget could conceivably be completed 25 percent, but by doing so the services extended by the municipality would be lessened just that much.

(Concluded 6 from Page 1) In their feet, with cries of "He's fainted!" But the reason was revealed as saddle and rider slipped to the ground. Fire Cure had lost his saddle and Baggett had won 10 points.

But this turn of fate was somewhat remedied in the Okalade, a probe rider handled all of the seven known plots with the 47 variations in the 57 varieties of tumbler in hand. At the close of the meeting, however, Baggett earned 3 points in the lead.

(Concluded 7 from Page 1) fainted," the villager admitted. "As a result, I showed up at the wrong house for dinner. Come to think of it, maybe the joke was on the girl, after all!"

Yah, but which girl? Village President Harry Allen woke up at 3 o'clock the other morning, or rather he was dozing "up," to find himself minus one fence in front of his West Maple residence home. Where the fence once stood, sat W. C. Burton, 1354 Woodmont street, Detroit, in an automobile. Burton, among other things, was rubbing his eyes. "Bad time to go to sleep," he agreed as he offered to pay \$20 for a new fence.

The village flag at the corner of Maple and Woodward avenues had not been lowered at a late hour last night. The waverer reasons it thus: The care of the flag is entrusted to the police. Members of the police force who are Legionnaires take special interest in this function of the department. Legionnaires, whether on the police force or not, were wakened last night in Detroit. Hence, the flag was left flying.

Church News

First Presbyterian Church Rev. Clarence Wright, M. A., Pastor. Rally Service in connection with the Sunday School at 10 o'clock tonight. The service will be given by Superintendent Smith and Gracie. Reorganization of classes and introduction of envelope system will be arranged. Mr. Wright will be present.

The spirit of John B. Stetson carries on... that's why, today, your Stetson costs only \$7!

BACK in 1865, John B. Stetson started out to make a felt hat as fine—or finer—than any which the wealthy American gentleman was importing from Europe, and sell it at a price that the average American could pay. Other haters laughed at him—but the fact that today the John B. Stetson Company is the world's greatest hat-making establishment, is testimony to the success of the idea.
