

Completion Of 310,000 Christian Science Hymnals Expected Today By Publishers

Completion of the largest hymnal since the first of the series was expected today at Kingsport, Tenn., where the Kingsport Hymnal Co. was to finish 300,000 cloth-bound books and 10,000 of fine full leather-bound books for the Christian Science Publishing Society of Boston, an announcement from the society says.

Five of the largest printing presses of the Kingsport Press have been running 16 hours a day since June 15. A total of 350,000 of paper has been used in the books, as well as 40,240 yards of book cloth, 29,000 yards of lead bands, seven tons of endpaper material, 30 tons of cover board and more than 216,000 yards of mail reinforcement for the backs of the books, the president of the printing organization says.

Probably the most outstanding part of the manufacturing process will be the use of more than 1,000,000 sheets of 22-carat gold for the stamping on the cloth-bound edition, including the edges and stamping the deluxe edition. It is estimated that the cost of the gold alone will be \$12,500. The hymnals are for distribution throughout the world. Distribution is expected to begin about Sept. 1.

WE HEARD IT SAID BY ESTHER VANDER KAMPE

"For a long time I had determined, as I passed through Birmingham on business trips, to make it my home. It offers unsurpassed advantages for men's families. Good schools, protected residential areas, and a neighborly spirit. Too, it is located so that if I want to go north to Bay City, Saginaw, or other adjacent points, they are convenient to avoid road roads. Birmingham is bound to attract where I come to the present qualities."

Three HANDY HEATING HELPERS for industrial processes using a small amount of heat

If you are a small manufacturer, or a big manufacturer with a process using small quantities of heat, you will be interested in these unique electric heating units. By means of these units, you can often do a small heating job cheaper than any other method.

Take, for example, SPOT—the cartridge-type electric heating unit. This small unit provides a spot of clean, safe, odorless, precisely controlled heat just where it is needed in a process or in a machine. STRIP—the electric strip heater, provides strips of heat for use in scores of hard-to-heat locations in cabinets, cutting holdings, crisco cans, valve boxes, DIP, the electric liquid heating unit, can be placed in tanks or kettles or in compartments of machines, for the heating of oil, plus, water or other liquids.

These units are surprisingly low priced. A cartridge unit like SPOT sells for only \$2. A unit like STRIP sells for \$1.50. And a simple liquid heating unit of the DIP type is available for \$10. In addition, there are many other kinds, among which you can choose one exactly suited to your heating needs.

Detroit Edison engineers will gladly study any heating problem you may have—especially your smaller jobs—and give you their recommendations. We do not sell or rent this equipment, and there is no obligation. Simply call on the nearest Detroit Edison office.

Democrat In Race For County Sheriff

Pontiac Candidate Promises Efficient, Economical Administration Of Office

ANN ARBOR, Mich., Aug. 25.—Frank A. Birmingham, attorney-at-law, member of the University of Michigan track team, was included in an article from the Chicago Daily News, as read by Ralph Alder before the Michigan Olympic Dinner in Los Angeles recently.

The Birmingham student was Tom Ellery, son of Mr. and Mrs. H. P. Ellery, of Adams street. Ellery will enter his junior year at the university this fall. He has been a member of the varsity track team for the past year and was a member of the team when it won the Western Conference track meet at Evanston, Ill., in May.

A sports commentary column conducted in the Chicago newspaper by Ralph Cannon, former Notre Dame University student, the comments made that "the interesting thing about Michigan's victory was the Michigan men's critics and unknown who spoke to the occasion." The writer's comment was that the sophomore men and others consistently underdog as yet were equal to the strain of a major intercollegiate meet and performed with success and leading of veterans.

TWO DETROITERS FINED AS DRUNK, DISORDERLY

Two Detroiters paid fines of \$10 each rather than serve 10-day jail sentences when arraigned in court before Justice Floyd S. Back Friday morning. They were arrested at Woodward and Bennett avenues early Friday morning on charges of being drunk and disorderly. They gave their names as G. P. Penman, 2941 Cass street, and E. J. Beauchamp, 12340 Griggs street.

Drunk Driver Given 60-Day Jail Sentence

Run Over Car; Hits Parked Car, Detroit Driver Found Guilty Of Drunk Driving

In a 60-day jail sentence, in lieu of payment of a \$50 fine, was imposed by Justice Floyd S. Back Monday morning on a driver involved in an incident on South Woodward avenue late Sunday evening.

The driver, Fred Berens, 3103 Sheridan avenue, Detroit, failed to avoid a parked car on the east side of Woodward avenue at the corner of Adams avenue and crashed into its rear end, over the curb, causing slight damage. The sedan car, a coupe belonging to William H. Shough, of 322 Halfway avenue, had stopped at the curb shortly before Berens' coach left it.

Berens told Judge Back he was unable to raise the amount of the fine.

Explaining to William Shough, who was between a statesman and an politician, "A statesman, my son, wanted to do something for his country. A politician wants his country to do something for him."—Boston Transcript.

COUNTY INDIGENT LIST ON INCREASE

July Report Shows Alarming Gain In Number Of Poor Applying For Aid

Starting increases in the number of persons applying to the Oakland County Poor Commission for relief during the summer months, generally a period when the number of applications for relief is low, are made evident in the July report of the Commission made public by Commissioner C. B. Wilson.

The peak of applications for relief was usually reached in the winter in other years, with a decline in the spring and summer. However, this year there was a steady increase in applications until well into the spring before the decline began, "on the account of decreased employment," Mr. Wilson says, there is beginning a second increase in applications.

"About 40 new families are making application for temporary aid every day," said Commissioner Wilson. "This is an alarming increase, especially since our number of closed cases has decreased to about 10 cases a day." The total number of persons being given aid July 1 was 10,411, he said, but by Aug. 15 this number had jumped to 17,184. An increase of 7,300 persons was reported for July.

"We foresee a very serious situation in the county after Jan. 1, 1933," Mr. Wilson said. "At that time the township and city governments will have to assume the added burden of caring for their own indigents. The county will no longer be able to care for all indigent county residents, in view of the fact that only slightly more than 42 per cent of the taxes have been collected. Local governments will have an extremely serious situation to face at the beginning of the new year."

His Inspiration
 "What made you a millionaire?" "Curiosity led me to do it with it. I wanted to see if there was any income my wife couldn't live beyond."

Automatic Flopper
 Rastus, who, becoming his wife's laziness to his friend. "She's so lazy," he said, "that she done out completely so they'll flof over by themselves."

Charles M. Woodruff Dies At Detroit Home

Prominent Detroitier, Father Of Birmingham Resident, Was 81; Ill Two Weeks

Funeral services for Charles M. Woodruff, of 475 East Grand boulevard, Detroit, father of J. Fred Woodruff, of Woodward road, Birmingham, were held at his home Saturday afternoon. Burial was in White Chapel Memorial Cemetery.

Mr. Woodruff, retired head of the legal department of Parke, Davis & Company, died at the previous Wednesday, on the eve of his 81st birthday. He had been ill two weeks.

His son, a Birmingham resident for some time, was until recently vice-president and general manager of Campbell-Ewald company, Detroit advertising firm. Others who survive besides the widow, include four children, brothers and sisters of the Birmingham man: John E., a Detroit commercial architect; Wilfred J., Miss Mary Gertrude, and Mrs. Joseph Hamilton of Los Angeles.

Rites For Southfield Resident Held Here

Largely attended funeral services were held Saturday afternoon from the First Presbyterian Church for Mrs. Harry M. Russell, 18222 Beverly road, Mrs. Russell, for 60 years a resident of Southfield, died Aug. 17. Burial was in Southfield Cemetery with Rev. W. Clarence Wright officiating, assisted by Rev. W. George Evans, of Ann Arbor.

Mrs. Russell is survived by her husband, She was the mother of Howard Russell of Charlotte, Henry Russell of Farmington, Dr. Nelson Vance Russell, professor of history at Coe College, Cedar Rapids, Ia., Halsey Russell of Fowlerville, Mrs. Oscar Miller of Southfield, Mrs. Russell Holt of Pontiac, and the late Mrs. Will Hack and William Olin Russell.

Definitely Warned
 "What's happened, George?" she asked her husband who had not out to investigate.

"Puncture," he said briefly.

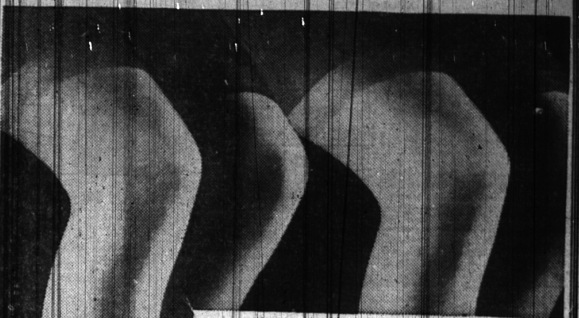

"You ought to have been on the lookout for this," she grumbled. "You remember the guide book informed you that there was a fork in the road."—Tid Bits.

CHEVROLET

You can't get away from the fact that A SIX IS MORE ECONOMICAL

Thousands of tests have proved... engineers have established... owner experience has confirmed THIS FACT: For lowest, all-round motoring costs: SIX CYLINDERS. No more—No less!

With more, you sacrifice the economy for which Chevrolet is so famous. With less, you sacrifice the kind of maintenance cost that Chevrolet gives you—the lowest available in today's low-price market!

SAVE WITH SIX CYLINDERS

Why not strike a happy balance between "too many" and "too few"? Do as the majority of low-priced car buyers have done ever since January, 1931: SAVE—with SIX CYLINDERS. The Chevrolet six-cylinder engine gives you wonderful mileage on gasoline—and oil! Because its smoothness is built-in—the body, chassis and engine are spared the repair costs that result from constant, inherent vibration!

Remember that you can switch to a 1932 Chevrolet for very little money. In fact, you'll probably find it more economical to buy a new Chevrolet Six than to worry along with the old car.
