"FLAVOR" more delicious than you've ever tasted before—that's ELECTROCHEF electric cooking!

To bring out the fullest flavor in foods, it is necessary that they cook in their own juices, preserving all of their delicious natural elements. This is one of the most popular features of electric cooking. The modern Electrochef SEALS-IN nourishing and healthful juices in roasts, and cooks meats and vegetables to melting tenderness with the addition of very little water. This conserves precious minerals and food values. The Electrochef oven is practically self-basting, like a pressure cooker. You will appreciate, also, Electrochef's cool cooking on these hot summer days. No matter how much you use the range, it will not overheat the kitchen. See Electrochef at any Detroit Edison office.
