## Kelvinator Reduces Prices AND THEY ARE NOW SOLD IN BIRMINGHAM

### Now the Lowest Prices in all the 18 years of Kelvinator History

HERE IS NEWS! Good news for the 1,000,000 women who will find electric refrigerators in 1932. Kelvinator announces reductions on all its 17 new Models—big reductions—all the way up to \$100—bringing the prices down to the lowest point in Kelvinator's 18 years in the industry.

These are not special Models brought out for "bargain sale" purposes, but the 17 Models of the regular 1932 Kelvinator line, first offered to the public less than 45 days ago. They are Kelvinators—Kelvinator quality all the way through—the product of the longest experience in the industry.

With this substantial reduction, and on the ReDeCo Monthly Budget Plan, the cost of a Kelvinator is so low that the purchase can now be made without materially affecting your budget.

The new low prices—the lowest in Kelvinator history—are now in effect. Come in and let us show you the big saving you now make. Let us show you the fully automatic Standard and Deluxe Models and explain why they are the only fully automatic electric refrigerators built—with four zones of cold, each automatically controlled, without any dials to set.

See the low-priced "K" Model—the biggest value in the low-priced field. Get your free copy of the Standard Rating Scale for Electric Refrigeration, your guide to a wise decision.
