Annual Maintenance Request

Starts Next Tuesday— Oct. 11th.

Young Man's Christian Association in London, England. Because the world NEEDED an organization of this kind, the Young Men's Christian Association grew. Today, its influence is witnessed in fifty-four countries the world over.

Never was the work of this association so tremendously important as it is today! Men of character are needed to solve the vital questions confronting all humanity.

A man's character is a process of growth. A boy today builds himself, into the man of tomorrow. Association with great personalities ... camplife ... self governed groups ... inter-change of ideas ... play ... games ... reading ... hobbes ... leisure hours directed into purposeful activities—all of these delig in the growth of character. All of these are part of the Y. M. C. A. program, contributing to the sort of growth every father wishes to see in his son.
