Nine Veterans Appear At First B. H. S. Workout Wednesday A squad of 52 Baldwin High School candidates reported for football practice to Coach Miles Robinson at Pierce Field Wednesday morning when the opening workout of the grid season took place. Among the eligible players reported were nine veterans from last season. Coach Robinson announced that he would conduct rigorous practices during the next two weeks previous to the opening of school. He has not decided whether there will be both morning and afternoon sessions or two morning workouts one for the probable first team and another for the remainder of the squad. Yesterday's work consisted of a skill session in which the coach explained the new ruling which would effect the style of play, and demonstrated the fundamentals of the signals. This was followed by calisthenics and group work by the linemen and backfieldmen. No scrimmaging will be done for some time. The program for the rest of the week will be much the same as the first practice, Coach Robinson declared. The nine veterans who reported are: Anderson, Harry; Bradford, Curry; Cushing, Laughlin and Shepherd, Linemen; Bunyan, Hunt and Clayton, Backfield. Among the candidates were the following who have had experience in previous years but have not carried letters: McKee, Moss, Boynton, McBride, Dennison, Donaldson and Guckelberg. More players are expected to report by the times school opens. Belgium is the most densely populated country in Europe, having 674 inhabitants to the square mile.

The governor pleaded a complete freedom from outside political machines in commenting that "in spite of riskings from political hide" I called a special session of the Legislature my first year in office in order to determine what was to be done about the tax relief question. "Thousands of dollars were returned to Birmingham alone in cuts of the tax rolls and decrease in state expense, Mr. Brucker said. "The end of the depression will mean a loss of faith in the Brucker administration," he continued. "Oakland County will benefit immediately from the tax reduction proposed. Michigan has already taken the greatest stride in tax relief in its history and now, in all other states in tax relief, I am proud of this as a step put forth by my administration, and I defend it. The "retraction of certain bitter statements" is an "obvious necessity," Mr. Brucker said. "I will not be called out for being, will indulge in no mud-slinging, will conduct a clean, impersonal campaign, in spite of my opponents, and ask the people of Birmingham to vote for me on the basis of their own fair-mindedness."

"This would save the taxpayers of Michigan \$181,000," he declares. "I have hope to reduce the cost of the state auditor-general's office by at least 10 per cent. Oakland County is too highly assessed, Mr. Walsh charged, and quoted figures to prove his point. "Governor Brucker does not know there is a depression," the candidate said, "and he doesn't know there is a depression, why does he permit spending thousands of dollars on a commission to re-minute them the most popular man George Washington was born, when right, this day Michigan people are starving. "If I am elected, I will ask an elimination of the present duplication of duties performed by the State Police and the county and municipal law-enforcing authorities. I will put the State Police in radio-equipped cars to patrol the highways. I will equip them to help the people, giving information changing times, and otherwise making themselves useful. The State Police are equipped now. I'll make them the most popular unit of the state government. "I feel that I am especially fitted for the position of governor. I have been not only lieutenant-governor, but speaker and floor leader of the House, and as such I have had the experience necessary to qualify me for the office. This is not a campaign; it is a revolt against the present government in Michigan. I ask the people of the state and of Birmingham to help their own interests, and not to vote for individuals, by electing me governor.
