CHEVROLET leads the field by the widest margin in its history

CHEVROLET, AMERICA'S NUMBER 1 CAR—43.99% of all low-priced cars sold

NUMBER 2 CAR—26.74%

NUMBER 3 CAR—19.21%

Based on the latest retail registration figures from E. L. Pelt & Company (all states for five full months). Since January first, Chevrolet has sold in excess of 370,000 passenger cars and trucks.

People have come to expect Chevrolet to lead the world in automobile sales. But this year Chevrolet has done even more than that. According to the latest available figures, Chevrolet alone has sold almost as many cars this year as all the rest of the low-price field combined!

When a car looks above its field like that, there can't be any argument about it. It must be an all-round better buy. And that's exactly what Chevrolet offers you: Fisher bodies, with the new ventilation system and the strongest and quietest body construction of the day—a solid steel over a sturdy hardwood frame. A valve-in-head six engine, unapproached for steel alone is not enough.

economy . . . Cushion Balanced to blot out vibration . . . full of snap and vigor—altogether the most efficient engine in the low-price field.

Then there's the Syncro-Mesh with Silent Second, the Starterator, Simplified Free Wheeling, the Octane Selector, long, parallel-mounted springs—more advancements than we have space to describe. And Chevrolet prices are as low as \$445. Don't guess—buy from the leader. Get a car that has been proved sound and dependable by more owners than any other automobile you can buy.

CHEVROLET MOTOR CO., DETROIT, MICH.
