THE CLEANEST COOKING METHOD ever devised!

AN ELECTRIC range is the cleanest cooking method yet devised. The reason is obvious. A glowing wire furnishes all the heat—pure heat—without smoke or soot or fumes. There is no burning of fuel to leave a black deposit on pots and pans, or to darken kitchen walls and curtains. Electric heat is actually as clean as sunlight. Here is a stove that you can really keep clean. Your electric range will continue to look new, day after day.
