Cancer due to Chemical Ferments caused by Alkalosis, Devitalized Foods and Vertebral Subluxations

By DR. WILLIAM F. PARRONS
 11367 Indian Avenue
 PLYMOUTH, MICHIGAN
 Rm. 3071

ALKALOSIS is a condition produced by an excessive amount of Sodium Chloride in the blood stream causing irritability, inflammation, swelling and softening of all tissue especially those of the various glands, thereby inhibiting the normal production of glandular secretions and hormones.

Devitalized foods are those foods that are devoid of one or more of the seventeen minerals and in one or more of the six known vitamins without which the human body cannot function normally.

Vertebral Subluxation is an incomplete or partial dislocation of one spinal segment in relation to the one above and the one below. This abnormal position of the vertebra causes a pressure on the nerve that makes its exit through this vertebral foramen. Interference of nerve impulses to an area of the body inhibits nutrition to said area; hence we have an area low in resistance and quite susceptible to the invasion and action of bacteria, or chemical irritability causing inflammation, swelling, softening and increased growth of tissue cells termed malignant tumors.

Having learned the cause of the development of the malignant tumor, we now turn our attention to the most efficient and scientific method of eradicating this present day, most dreaded disease "Malignant Tumors or Cancer."

First, we make a thorough Physio-chemical analysis and determine the exact percentage of Sodium Chloride in the blood stream.

Second, careful food test and all necessary dietetic corrections are scientifically outlined.

Third, scientific normalization of all vertebral subluxations.

Fourth, a special poultice is placed on the external cancer tumor. Within ten days the tumor has been completely removed.

Results in all cases of Internal Malignant Tumors would be more efficacious if the above methods of procedure were carefully and conscientiously adhered to until alkalosis devitalized foods and vertebral subluxations have been removed. Remove the cause and overcome the condition. At this stage we have what we term the Dormant Cancerous Tumor, so called because its development has been removed.

In all cases the Internal Dormant Cancerous Tumor can be completely absorbed by a process of Fasting to be supervised by a competent Druggist Physician (Naturopath or Chiropractor). Anyone suffering with an external malignant tumor would find it to his advantage to correspond, telephone or call in person and interview

Mrs. William A. Ferris
 538 W. London Avenue
 Windsor, Ontario, Canada
 Telephone, Windsor 35854

Ten years ago Mrs. Ferris accidentally cut the right corner of her mouth with a sharp edged spoon. It bled every day and finally developed into a Malignant Tumor about the size of a large cherry. Mrs. Ferris consulted a cancer specialist in Windsor, who diagnosed the growth as a Malignant Tumor. The specialist recommended X-Ray treatments. Mrs. Ferris submitted to these X-Ray treatments for six months with no apparent results. June 30, 1932, the Special Poultice was applied to the cancer tumor by Dr. William F. Parrons, within ten days the tumor and its roots were drawn from the corner of her mouth and face. The procedure was so mild that it was not necessary to use any kind of sedative. The scar is almost invisible.

Mrs. Ferris was 71 years of age on the 15th day of last July. As a result of the successful removal of the tumor, Mrs. Ferris looks 15 years younger.

Dr. William F. Parrons is a graduate of the following institutions:

1. Mobile Business College, Mobile, Alabama—1911.
 2. Nichols Memorial Training School for Nurses, Battle Creek, Michigan—1914.
 3. Ferris Institute (College, Preparatory), Big Rapids, Michigan—1918.
 4. Attended University of Michigan, Pre-medical Department, 1 1/2 years—1919-1920, 1922.
 5. National Chiropractic College, Chicago, Illinois—1925.
- Post-graduate:**
- Battle Creek Sanitarium, Department of Hydrotherapy—1924.
 - Eyes, Ear, Nose, and Throat, Dr. Risbin of Russ Medical Chicago, Illinois—1925.
 - Physio-Chemical Analysis, By Dr. Munroe, Portland, Oregon—1927.
 - Special Foot Technique, Dr. Miller, Washington, D. C.—1927.
 - Eyes, Ear, Nose, and Throat, Dr. Gillett, San Francisco, California—1928.
 - Western University, Department of Thalamotherapy—1930.
 - Cranial Technique, Dr. Gottam Colles, Salt Lake City, Utah—1928.
 - Basic Technique, Dr. Logan, San Francisco, California—1932.
- State Certificates:**
1. Michigan State Board Registration of Nurses.
 2. Druggist Physicians, Issued by State Board Registration in Medicine.
 3. Michigan State Board of Chiropractic.
- Regardless of your illness consult:
- Dr. William F. Parrons
 11367 Indian Avenue
 Plymouth, Michigan
 Redford 3071
- Treatment given in your home, whenever necessary. Consultation by appointment.
