M-F BOWS TO FELLOWSHIP '5'

Club Team Wins, 20-17; Holds 2nd Place In 'Y' League

The Fellowship Club quintet kept its grip on second place in the Y. M. C. A. Basketball League by defeating the Miller-Falberg five, 20 to 17, in the feature game of last Thursday night's program on the Barnum School floor.

Mulholland's scored its eighth straight victory of the season over the Baptist Church team, 42 to 20, and Van's Pharmacy trounced the DeMolays, 38 to 12, in the other two encounters.

The Fellowship-Miller-Falberg tilt kept the fans on the edge of their seats until the final whistle as they watched the auto service players try desperately but vainly to score a victory which would have given them a tie for second place in the circuit. The teams were tied, 8 to 8, at the half. Coyn, Fellowship forward, led in scoring with seven points.

Mulholland's had little trouble with the Baptists, rolling up 25 points in the first half, and continuing an effective fire on the basket during the last two periods. Van's Pharmacy players were a complete masters of the situation throughout their fracas with the DeMolays, successfully checking everybody but Fear, center for the losers, who counted 11 of his team's 12 points for high scoring honors.

Three more tilts will be played on the Barnum floor tonight, the first beginning at 7 P. M. The feature contest promises to be that between Mulholland's and the Fellowship Club. Van's Pharmacy will meet the Baptists, and Miller-Falberg will face the DeMolays in the other two contests.

FURNACE CAUSES BLAZE

Firemen were called late Wednesday morning to the home of Scott A. Hersey, 775 West Maple avenue, where a defective automatic furnace had caused a fire in the basement. The blaze was extinguished before it had caused further damage than to scorch the rafters.

The first gas tank in the world to be camouflaged was treated in 1926 by Ray Greenleaf, a New York artist who had experience in camouflage work during the World War.

MULHOLLAND'S TO PLAY M. J. BAKER QUINTET

Mulholland's of Birmingham, star team of the Y. M. C. A. League, will face the M. J. Baker quintet, of the Detroit Industrial circuit in the feature tilt of a three game card in Royal Oak High School Gymnasium tonight. The first game will begin at 7:15 P. M.

Park. So entertaining is the letter, and so vivid in its descriptions, that it gives a clear vision of this globe-trotter, still spry and eagerly curious at 77, who never loses the kindness of sharing her wonderful experiences with her older friend here in Birmingham.

Total registration in the Birmingham schools in January, 1933, was 2,711, as compared with 2,574 in the corresponding month the year before, according to a report, submitted to the Board of Education by Miss Nellie H. Williams, attendance officer, last Thursday night. The total membership at date of Jan. 27 was 2,699, an increase of 20 students over the year before. Total average attendance for the month was 2,573, as compared with 2,353 for the same month of the previous year. Total average percent of attendance for this year has been 91. Last year it was 94.3, according to the report.

Although defeated in the quarter-finals of the international four-ball tournament at Miami, Fla., Monday, Al Watrous, Oakland Hills Country Club pro, will nevertheless be able to tell his winter barnstorming tour of southern tournaments a success in more ways than one. Watrous won $200 first prize money in the Orange Blossom Open Journey at Lakeland, Fla., last week with a score of 138 for 72 holes, six below par, topping Walter Hagen, who tied for second place, by four strokes. Tommy Armour and Olin Dutra eliminated Watrous and Charles Guest, the latter of Deal, N. Y., in the four-ball tournament.

Several "first" robins of the season have already been reported, but it took William H. Dove, 391 Townsend street, to come to the Wanderer with the story of having seen the first single worm. The creature, which would have fitted perfectly over a fish-hook, was not home-grown, however, Billy admits, for he saw it in a Windsor, Ont., mud-puddle, Sunday.

Four residents of Birmingham who celebrate birthdays with George Washington are Ray Palmer, president of the Board of Education; Frederick D. Whittlesey, son of Mr. and Mrs. M. B. Whittlesey of East Maple avenue; Miss Betty Breen of Lakeside drive, and Roland H. Mann of Greenwood avenue.

News does travel, and the exploit of three Birmingham police officers—Sergeant Delvin Service, and Patrolmen Robert Emmett and Robert Appell—in rescuing a St. Bernard a few weeks ago from the frozen waters of Quarton Lake has not gone unheralded, even in the far Northwest. A clipping from a Tacoma, Wash., newspaper, describing the incident, has been received here by Mrs. T. C. Hoteling, 317 Merrill street, from her sister, Mrs. A. L. Frost, who lives in Tacoma.

Some three tons of old newspapers and magazines were collected by Birmingham Boy Scouts Saturday in their second house-to-house canvass of the community. The papers were weighed on the scales at the McClellan Feed and Salt Company so that the amount collected by each troop could be properly credited to that troop and the proceeds allotted accordingly. Revenue from the paper drives is used to pay troop expenses.

An exhibition of contemporary painting, including both American and foreign works, is attracting considerable attention at the Cranbrook Academy of Art where it will be on display until Mar. 5. The exhibition, which is circulated by the American Federation of Arts, includes paintings by leading American, German, French and Mexican artists.

The entire country, so anyway a large part of it, seems to have gone into the rug-hooking business. The C. DeForest Platts of Worth street, who are spending the winter in Ames, Ia., write to friends here that they have done little else since their arrival and will soon be able to furnish a home with their superb rugs. They expect to return to the city about Mar. 21. Mr. Platt is well-known throughout Birmingham and the Hills as a landscape architect.

There are hobbies and hobbies. Harry Bissett, of Bloomfield court, admits that his special recreation is painting. Although the art comes naturally to him and he has had no training of any sort, a poster depicting the "Tropic-the-world" idea which was displayed last night at the joint party of the Rotarians and the Rotary Anns at Bloomfield Park is proof that the lack of training has not hampered his ability.

A home-made radio hook-up and broadcasting system supplied Rotarians with plenty of amusement at the Community House Monday noon when a group of their members presented, in dramatic form, high spots in the life of George Washington. Harry Bissett, club president, who was responsible for the skit, acted as radio announcer. Assisting him as characters in the drama were Mrs. W. S. Wall, F. Morse Cooke, Dan Swarts, Robert D. Lynd, Chad Ritchie, and Forbes Hascall.

"Mind" was the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, Feb. 19.
Among the Bible citations was this passage (Ps. 90:16, 17): "Let thy work appear unto thy servants, and thy glory unto their children. And let the beauty of the Lord our God be upon us."
Correlative passages read from the Christian Science textbook, "Science and Health, with Key to the Scriptures," by Mary Baker Eddy included the following (p. 511): "The one Ego, the one Mind or Spirit called God, is infinite individuality, which supplies all form and conditions, and which reflects reality and divinity in individual spiritual manhood."

WE HEARD IT SAID BY—
Carl A. Strand, of Adams road: "Our civilization is destined to fall eventually. Perhaps not for a century or two, but in the end human nature will cause a decay of democracy. The only thing that can prevent this fall is the elimination of selfishness."
