SCRIP

And Why We Take It!

Our answer is. Suppose nobody cared and refused to take our scrip, what would happen to our teachers and other Board of Education employees and OUR SCHOOL SYSTEM?

We believe it is the duty of every civic minded citizen to support their community; that's why we have taken thousands of dollars worth of scrip from Board of Education employees and will continue to do so; also city assignments from city employees and Detroit City scrip from all holders of same.
