# The Birmingham News

BIRMINGHAM, OAKLAND COUNTY, MICHIGAN, THURSDAY, JUNE 8, 1933

## RITES HELD FOR DAVID A. BELL

**Taken By Death**  
Largely attended funeral services were held this afternoon for David A. Bell, business man and former Birmingham and Bloomfield Township official, who died early Saturday morning at his home, 517 West Frink street, after an illness of three weeks. He was 50 years old.

Mr. Bell had been in the meat business in Birmingham for 12 years, and for 10 years was general manager of the Pacific Packing and Canning Company. He was elected to the Village Commission for a one-year term on Mar. 10, 1918, and again for two years on Mar. 13, 1922. He was a candidate again in 1927, but was defeated.

Mr. Bell also served one term as village clerk, and two terms of one year each as Bloomfield Township treasurer.

He was born in Southfield Township Nov. 24, 1885, and moved to Birmingham with his family when he was 10 years old, residing here ever since. In 1907 he married Miss Alice E. Bradley of Plymouth, who survives him. Surviving also are a son, Gerald L. Bell, of Detroit; three sisters, Mrs. John McClelland and Mrs. William G. Olson of Birmingham, and Mrs. Everett Haines of Detroit, and one brother, John W. Bell of Birmingham.

He was a member of the United Presbyterian Church and of the Birmingham-Masonic Lodge.

The services Tuesday were held from the S. O. Wylie Bell Home for Funerals, with burial in Southfield cemetery. Rev. L. Earl Jackson, pastor of the First Baptist Church, officiated.

## TRUCKS CRASH YOUTH KILLED

**19-Year-Old Passenger Injured Fatally When Drives Down**  
A 19-year-old passenger in a truck living near Frink street, died today as the result of a collision of two trucks today afternoon on Woodward avenue near Chapin avenue. It was Birmingham's first traffic fatality since December, 1931.

Spitzer was riding in a truck driven by Carl Hamilton, 24 years old, also of near Woodward, when crashing the truck into the front of a truck driven by Norman Hamilton, 52, of 320 First Street, Spitzer. Both trucks were going south.

Hamilton had stopped his truck along the east curb to repair the ignition, he said. The motor was still running and he had, he said, stopped not more than a minute when the crash occurred. Hamilton explained that he had been startled and woke up to find Hamilton's truck immediately in front of his.

Both Hamilton and Hamilton, neither of whom was injured, were released after making statements to Charles E. Webster, assistant prosecutor.

Spitzer suffered a broken right leg, fractured pelvis and other injuries, and died two hours later at St. Joseph's Hospital.

In his statement to Webster, Hamilton said he was driving west on M. Monday to bring his load of calves to Detroit for sale. Spitzer, making the trip north, had had one bottle of 32 beer in Detroit but was not intoxicated, Hamilton declared.

## BURGLAR STEALS \$3,000 IN JEWELS

**Thief Reappears For Big haul After Absence Of Several Weeks**  
A burglar believed to be the same thief who has looted nearly a dozen Birmingham and Bloomfield Hills homes during the past several months, turned up again last Monday night after an absence of several weeks at the home of Julian M. Case, 392 Lakeside drive, and made off with jewelry valued at about \$3,000.

As has been the case in most of the previous burglaries, the house was entered when members of the family were away, between the hours of 7:45 and 10:45 P. M. A downstairs bedroom window was tried open to admit entrance.

The jewels were taken from an upstairs bedroom, which appeared to be the sponsor of two complaints made in the past few days in regard to dogs being permitted in the yard. The burglar was charged with a year for a prosecution under the city dog ordinance.

John H. Ott, 1115 Buckingham road, who is charged with allowing the police dog to stray from the premises, did not under leave Ott said, that he has received numerous complaints.

Ott pleaded guilty when he was arraigned Tuesday before Judge Courtenay in Municipal court, and his \$100 bond was set at \$100.

That day, Police John P. Hackett announced earlier in the day that complaints about dogs running loose, destroying property and biting children had been numerous, that the ordinance would be stringently enforced, but the warrant was not issued until the day that has been issued.

## Violation Of Dog Ordinance Charged

**First Warrant Of Year Issued In Police War On Roaming Canines**  
Determination of the police department to stop dogs from running at large in the city, and the issue of a considerable amount of money to dogs has resulted in the issuance of the first warrant of a year for a prosecution under the city dog ordinance.

John H. Ott, 1115 Buckingham road, who is charged with allowing the police dog to stray from the premises, did not under leave Ott said, that he has received numerous complaints.

Ott pleaded guilty when he was arraigned Tuesday before Judge Courtenay in Municipal court, and his \$100 bond was set at \$100.

That day, Police John P. Hackett announced earlier in the day that complaints about dogs running loose, destroying property and biting children had been numerous, that the ordinance would be stringently enforced, but the warrant was not issued until the day that has been issued.

## Plan Camp Period For Younger Boys

**Camp George To Be Open To Boy Scouts In August Instead Of June**  
The summer camping period for Birmingham Boy Scouts at Camp George, originally scheduled to be held the last two weeks in June, has been postponed to the first two weeks in August, in accordance with a decision of the District Committee, made at a meeting Monday night.

In addition to the camp for Boy Scouts, the committee also decided to sponsor a two-week camping period for younger boys, beginning July 15. All boys between the ages of 10 and 12 years will be eligible to attend.

During both periods, the camp will be in charge of Howard Crull, Boy Scout commissioner, assisted by A. C. Schalm and Howard Webster, scoutmasters. A nurse and physician will also be in attendance.

## GOLF CLUB MANAGER KILLED IN COLLISION

Birmingham members of the Plum Hollow Golf Club, seven of whom were absent, were shocked Monday morning by the death of James V. Hill, manager of the club, who was killed instantly when an automobile he was driving ploughed head-on into a Grand River avenue street car at Montrose avenue, Detroit.

Both street car and automobile were badly wrecked, but neither the motorman nor conductor was injured. There were no passengers in the street car. Hill is believed to have fallen asleep at the wheel of his car. Daniel Robinson, the motorman, told police he saw the coming of the street car track a half block away.

## THIEF ESCAPES UNDER FIRE OF PATROLMAN

A burglar who was discovered attempting to enter the home of Burton Pheasant on Half Moon road early Friday morning escaped, apparently unharmed, after three shots had been fired at him by George Williams, residential police guard.

Williams and Philip Lambert, head of the patrol, saw the prowler in the rear of the house, and Williams opened fire. The would-be thief dashed into nearby woods. Williams and Lambert, aided by two deputy sheriffs, searched the woods until daylight but found no trace of the prowler.

## JAILED FOR TRYING TO STEAL A STREET

Charged with attempting to steal a street, S. J. Fox, 38 years old, of Bonnaville avenue, is serving a 30-day sentence at the County Jail. Officers charged him with removing 14 truck loads of dirt from Oakley street, Clawson.

## Public Works Committee To Consider Six Projects

**Manager's Report Analyzes Half Dozen Possible Uses For Government Loan**  
A brief analysis of six different public works projects which the City of Birmingham is studying with the aid of a government loan was submitted to the Commission Monday afternoon by Manager James W. Harry. The report will be studied jointly by Mr. Harry, City Engineer Harold H. Corson and members of a committee appointed last winter to study the feasibility of undertaking certain public works projects to relieve the city's water burden.

The committee has not yet decided on any one project since the banking holidays, but has been called together for a preliminary conference of Mr. Harry's report tonight. The six projects analyzed in the report include a water treatment plant, sewage disposal, trunk sewer, city trunk sewers, and curb and gutter and hard surfacing.

The report follows in full: In accordance with instructions submitted herewith some notes on the projects are given which might be eligible for government support under the president's public works construction program. These notes should be taken as a guide only, as it is not known at this time what conditions will be required for eligibility with financing influences.

The study of the projects is an immediate problem, since a safe margin of correct engineering design.

**Water Treatment Plant:** This project would contemplate the construction of a plant for the removal of iron and the municipal softening of water. It would include not only the construction of the plant but the laying of certain sections of arterial main in order to take advantage of the economies of the existing system. The exact type of construction would be a matter to be developed after engineering study.

A considerable amount of money has been put on this project from the point of view of a self-liquidating project. The committee is studying this project and will make a report to the Commission.

The project is composed of C. W. Crandall, John Connelly, H. N. Davock, Scott Horsey, Charles James, David Ladd, John E. Martz, Guy Laughlin, Marshall Morgan, Frank Hackett and B. C. Stewart.

**Sewage Disposal Plant:** Recognizing the need for adequate sewage disposal, the Commission two years ago initiated an experimental program in circulating a petition to the county drain commission to survey the main sewer construction of a sewage disposal plant for the natural drainage district in which the Birmingham area falls. This survey was completed by Hoad, Decker, Shoecraft and Drury, two years ago this spring.

As at present outlined, it would contemplate the installation of one mile of an adequate trunk sewer down the Rouge Valley to some point well below the city area enough to make the ultimate development to the north and west of us. If carried through on the plan for two years, it would provide not only a solution for all time to come, but would be the most economical way to place the city's point of view. The inertia in attempting to formulate and put through a large drainage district might make it advisable to segregate the city's sewage disposal program and proceed with it without attempting to work through the drain commissioner.

The trustworthiness of the data involved under other plan could be given at this time.

**Grade Separation at Maple and Old Grand Trunk Right-of-Way:** The improvement of a 200-foot street on the old Grand Trunk right-of-way will place the city in the same danger of being cut into two separate communities, that now exists in Ferris Park. In this view, the City Planning Commission projected a grade separation at Maple avenue which would help maintain the unity of the city and materially decrease the ultimate expense in its services such as duplication of schools, fire department and other agencies. The project secured the approval of the Board of Public Works when the improvement was put in. If developed as a part of the public works construction when the improvement is a local project, but would be handled by and through the State Highway Department. No trustworthy estimate of cost involved could be made until after further study.

**Eton Road Sewer:** For a little over 10 years, constant effort has been made to have completed the sewer down Eton road which would provide the outlet for the most of the sewage of the city. The sewer runs down Eton road and north of Webster, as well as other areas to the west.

## Wearing Close Of 20 Years' Service On Police Force

**Lieutenant Leader**  
For 20 years of service on the Birmingham Police Force, Lieutenant Leader has been a member of the force since 1913. He has served in various capacities, including patrolman, sergeant, and lieutenant. He is now in charge of the 10th precinct. He has been a member of the force since 1913. He has served in various capacities, including patrolman, sergeant, and lieutenant. He is now in charge of the 10th precinct.

## SCHOOL BOARD THANKS SCRIP SALE COMMITTEE

The Board of Education last Thursday night instructed its secretary, Carl G. Patten, to address a letter of gratitude to the general chairman of the committee in charge of the recent school scrip sale campaign, addressed to each of the members of the subcommittee. Patten thanked them for their efforts which were largely responsible for enabling the schools to have a surplus of \$75,000.

The committee was composed of representatives of both men and women, under the general chairmanship of Harold B. Sherry.

Of which has been spent in patrolling in 1934 cars. He still rides from 8 to 100 miles nightly in a policeman's uniform.

Now 40 years old, "Dick" has been in police work for 23 years. Before coming to Birmingham he spent 11 years as a member of the police force in Sault Sainte Marie, and two years in the Pontiac department.
