

Baldwin Wins in Regional Meet at Ypsilanti

Guckelberg Takes 3 Events, McKee, Brelsford Also Star

(Continued from Page 1, Part 1)

turned with third place in the 100-yard dash.

Although he was unable to duplicate the achievement of his brother, Clayton, who set up a new record in the half mile jaunt, Larry Brelsford had little difficulty in winning first place in the mile event, even though his time was not a record.

Class Brelsford, who has high jump, set this season in competition, was eliminated at 5 feet 2 1/2 inches Saturday and was severely injured in third place.

Wins in Field Events

High jump victory was won, placed in the track events. The high jumper secured six first places in the track events, registered only one track event, the 400-yard dash.

In the field events, Guckelberg's first in the mile, and Oberbeck's third in the high jump were the only wins in the field events.

Coach, Wilkey had an entry in the shot put and Steve, his only hope in the pole vault, was eliminated in the preliminaries.

The 100 in the Class A division of the meet went to Gronse Pointe, Mich., but seven other schools were present. Romulus High won the Class B championship and Roosevelt High of Ypsilanti led in schools in Class C.

CRANES 3RD IN ROW Track Team Defeats Nichols School in Buffalo Meet, 65-27

The Cranbrook School track team stretched its string of victories to three straight Saturday with a split victory in the Nichols School in Buffalo, N. Y. The Cranes won by a score of 65 to 27 on the strength of second and third places in the track events and a series of brilliant performances in the field events.

Nichols got off to an early lead by taking first in all but two of the eight track events. The Buffalo team led by a score of 37 to 31 in the net results from the running events, but Cranbrook led in a strong bid for victory in the weight events and finally overtook the foe through its strength in the field division.

Cranbrook's first in the running events came in the 120-yard hurdles, which Stranahan won in 1:52 seconds, and in the 880-yard relay. With the relay yet to be run, Cranbrook was clinging to a four point lead. The race was left in the last exchange, when a Nichols pass went and the Cranbrook team of Thompson, Quinn, Patten and Andre secured first in 1 minute 35.1 seconds.

In the field events, two Cranbrook records were, sadly, fractured. The first was the discus, in which Palmer Beaudette cracked up his own record for the second time this year with a toss of 123 feet 2 1/2 inches. Beaudette also took first in the shot-put. The second record was made in the pole-vault when Victor Pattenelli tied with Neff of Nichols, 10 feet 10 1/2 inches to break the former school record of 10 feet 5 inches made by Bill Lynch of Birmingham in 1931.

The high point man of the meet was Neff of Nichols, whose firsts in the high hurdles and half-mile, and a tie for first in the pole-vault gave him 14 points. Andrea of Cranbrook finished just behind him with 13 1/2 points from second in the high hurdles, 220 dash, shot-put, and broad-jump, and A Cranbrook on the relay team.

Cranbrook's next meet will be held Saturday at Cleveland University School, the strongest team in the Tri-State League. Year Cranbrook dropped to relay to Cleveland to lose the meet by 4 1/2 points.

Sidelights on the Regional Student Councils CHOOSE OFFICERS

Almost perfect weather conditions prevailed for the first in the regional meet at Ypsilanti Saturday afternoon. Although a hard rain-storm in the morning forced officials to run the meet on a track covered with a thin sheet of water, the sun had dried it out sufficiently to make it, though a hard rain-storm in the morning and in nearby first place.

A strong wind blew in the morning and afternoon, but it was not strong enough to make it difficult for the runners. A hard rain-storm in the morning and in nearby first place.

Three boys were selected by the student council of their council: Bill Loud, vice president for last semester, will occupy the president's position which was held last year by Bert Spinning. Eugene Merz was elected vice-president and Bill Marindale, secretary-treasurer.

Fred Adams, an eighth grader, was elected president of the Adams Council. Norman Lyle was elected vice-president and the retiring officers are Lou Cobb, president, Baird Thomas, secretary-treasurer, and Charles Boynton, secretary.

Will leave Birmingham early Saturday morning to be in Lansing by 9 A. M. for the first preliminary race in the state meet. The meet will last all day, with the final event ticketed for 4:30 in the afternoon.

From all indications, the Baldwin should finish well up in the meet, with Niles and Mt. Pleasant in the opinion of Coach Frank Whimsey, as two of their strongest rivals for the championship.

Corrovet Elected By Teachers' Club

H. Earl Corrovet, instructor in speech and economics at Baldwin High School, was chosen president of the Birmingham Teachers' Club at the recent annual election. The club's officers will be inaugurated Friday afternoon at final honor assemblies at the three schools.

At Barnum the same officers will continue, but their positions will change: Walter Forbes, last semester's vice-president, will exchange places with Bob Feeler, who was president during the last term. Joan Campbell will be elected to the office of secretary-treasurer.

Three boys were selected by Baldwin students to offices of their council: Bill Loud, vice president for last semester, will occupy the president's position which was held last year by Bert Spinning. Eugene Merz was elected vice-president and Bill Marindale, secretary-treasurer.

Barbara Grace Spalding, daughter of Dr. and Mrs. Edward Spalding of Birmingham, has been awarded a cum laude key for her work in the state meet. She will be graduated June 12. Miss Spalding intends to enter the University of Michigan as a freshman next fall.

BALDWIN TEACHERS ENJOY STEAK ROAST
Members of the Baldwin High School faculty enjoyed a steak roast Tuesday afternoon at Bloomer Park, near Rochester. The teachers, early coach, came to the party dressed for a good time in the out-of-doors.

Miss Helen Hammond, assisted by Mrs. Carol Darling and Miss Aris Howarth, made the arrangements for the roast.

THE DETROIT EDISON COMPANY
GENERAL OFFICES
2000 SECOND AVENUE
DETROIT, MICHIGAN
May 22, 1933

TO THE CUSTOMERS OF THE DETROIT EDISON COMPANY

This is the eighth of a series of weekly letters addressed to our 600,000 customers in 29 cities, 68 villages and 450 townships in the southeastern corner of the State of Michigan.

There are power houses in which electric energy is produced for us by steam power, at four different places: at Delray and at Connors Creek in Detroit; at Marysville on the St. Clair River, just south of Port Huron; and on the Trenton Channel of the Detroit River, below Trenton. The last named is the largest of the four. These are interconnected by transmission lines on high steel towers, out in the country, and by cables laid underground in the cities, so that each power plant can help out its neighbor on either side.

The electric current does not go directly from the power houses to your house connections. There are 164 switching stations and substations where the high pressure current is received and transformed to an intermediate pressure of 4800 volts, to be distributed to the transformers which serve most of you.

Too many rules are not a good thing in business. It has one that comes pretty close to being observed as if it were fully written. It reads— "The Service Must Not Fail." That is not always as simple as it sounds. Sometimes, storm and lightning, and sleep and snow make it a difficult job. And note of God (as our legal friends call them) are not our only worries. We must keep the plants in condition. We must keep our demands for current, no matter how sudden, and generators to meet unforeseen demands for current, no matter how sudden, and it takes two years to build and install a generator. We must ever be ready for the unexpected. Sometimes the unexpected turns out to be calamity and there is — well, you can see the rest. In that case we must be ready to clean up the mess and get service going smoothly again.

The men employed by us are thoroughly trained to control and regulate and test the lines and machines. Whether it be a 70,000 horse-power steam turbine or a five ampere fuse plug, the Edison man assigned to see that it functions properly must know his job and must attend faithfully to his job.

The Detroit Edison Company is an important factor in the social, commercial and industrial life of Detroit and southeastern Michigan. It recognizes its unique position and fully appreciates that it could not exist except for the support of the community.

The Detroit Edison Company's interests are identical with those of its customers. We cannot succeed except through your success. Therefore, we believe that we should render adequate electric service at an acceptable price. By the measure that we accomplish this, our own success will be measured.

We do an honest job because we know that is the one way that we can have a continuing successful business.

John Dowd
President

It was said about a mousetrap
Now it is True About a Car!

Remember the old saying, "Make a better mousetrap... and the world will... and so on! Well, after all these years, there does seem to be something to it.

Pontiac sales are ahead of last year—and still growing

You will admit that in a year like this, that means the car must have something. Something that people want.

Now, Pontiac does offer a lot for the money. And its price is low.

Pontiac gives a big, beautiful package of Balanced Value.

What does that mean? Simply that Pontiac gives you Economy—but not at the expense of other qualities. It gives also Durability, Comfort, Safety, Performance and Appearance. It gives all-round Balanced Value for the owner.

It means that the car wears evenly through tens of thousands of miles of use. And at the end of two or three years it gives extra dividends in the way of higher trade-in value. Fisher bodies have Fisher No Draft Ventilation. Pontiac is a typical General Motors Value—a good car to buy.

Read the Free Booklet
Come in for a free copy of the booklet "What do you mean—Balanced Value?" It explains what Pontiac is in everyday terms with which everybody is familiar. It is worth reading, because it will make you a better car buyer—a more critical judge of value.
