Rotarians Learn Of City's Relief Costs

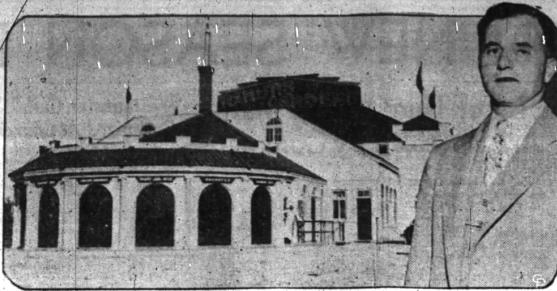

The City of Birmingham has spent \$20,531 for welfare relief since Mar. 1, the Rotary Club was informed Monday noon at the Community House in an address by City Manager James W. Parry.

Whereas 218 families were listed on the welfare roll in March, the number had dropped to 114 in September, Mr. Parry said. Despite the drop, however, this is 49 more families than were receiving relief in Birmingham in September of 1932, he said.

Eight members of the club made reservations for the annual International Meeting to be held in Windsor, Ont., Nov. 5, at which Rotarian Scott Langley of Cheltenham, Eng., will be the principal speaker. The 82 clubs of the district located in eastern Michigan and western Ontario will be represented at the meeting.

ASTRONOMY LECTURE
Prof. H. D. Curtis of the University of Michigan Observatory will give a popular lecture on the moon in the auditorium of Cranbrook School Friday evening, under auspices of the Cranbrook Institute of Science. The lecture will begin at 8:15 P. M.

LOSES RIGHT TO DISPLAY BLUE EAGLE OF NRA

Theodore G. Rahutis, right, proprietor of the Rahutis Gardens, above, dine and dance establishment near Gary, Ind., who is the first of the nation's employers to be cited as a flagrant violator of the re-employment agreement of the National Recovery Act, has been ordered to surrender his Blue Eagle by NRA officials at Washington. Recovery administration officials stated that every

one of Rahutis' 40 employees had complained he had violated both the maximum hours and minimum wage provisions of the agreement. Similar action is contemplated in other parts of the nation.

When Jake Green visited Borger, Texas, two years ago he found the only hotel filled to the roof. "No, Sir," said the clerk, "I can't give you a room. The best I can do for you is to give you a half of a private dining-room. There's a screen across it, and a lady has the other half, but she won't bother you."

Jake agreed that the accommodation would do in a pinch, and retired to his apartment. Thirty minutes later he ran into the lobby, wild eyed and pale. "Hey," he yelled to the clerk, "that woman is dead."

"I know it," said the clerk, "but how did you find it out?"—Kreolite News.

Judge: "I cannot conceive of a meaner, more cowardly act than yours of deserting your wife. Do you realize you are a deserter?"
Prisoner: "Well, if you all knowed dat lady as I does, boss, you sho wouldn't call me no deserter. Ah is a refugee—dat's what Ah is."—The Furrow.

PRESS SCORNS REVIVAL PLAN

News Men Say Need For Equality Of Distribution Is Overlooked

By CHARLES P. STEWART
Central Press Staff Writer

WASHINGTON.—A National Press Club consensus unquestionably sees as the only permanent solution of America's (not to mention the world's) economic ills the development of a system under which each producer will be guaranteed what he produces, with no more than a fair allowance deducted for capital's unpadding investment in the facilities he utilizes and for legitimate overhead.

The Washington newspaper men's overwhelming sentiment unhesitatingly is that the Roosevelt administration appears wholly to have disregarded the urgent need for a division of output on this basis.

If a worker's hours are reduced sufficiently to cut down his production (and reduced production is the avowed end and object of NRA's new codes, every one), he cannot conceivably receive more than he produces for any considerable length of time, as an undoubted majority of the correspondents reason.

Buying Less
If crops are partly plowed under, the farmer will get more for what is left but he will not have so much to sell, and if paid for what he has sacrificed, the non-agricultural class will be able to buy less because it will have to foot the bill for what he has destroyed, according to this same reasoning.

If living's cost is boosted by monetary inflation or credit expansion the white collar folk (about 30 per cent of the population) will be badly pinched until

their incomes rise, and then the old status will be restored. If the public debt is increased by several billions, for relief, the bonds will soon gravitate into a few hands, and the burden will be worse than ever.

The working newspaper men's consensus is that the administration is persistently barking up a series of the wrong trees. Equality in the distribution of products is the tree they recommended.
