a Psychic Bid!

W ARE bidding for your interest in "Modern"—that is Electric Cooking—with a new, efficient and well designed electric range

willing to make a demonstration without cost to you. To this end and for a limited period we will install for you an electric range without initial charge, and let you use it for six months, removing it without charge if you do not like it. This is an opportunity for you to TRY electric cooking in your own home before making an investment.

During the trial period, you pay for the service as registered by your meter, plus a monthly charge of \$1 for the Waldorf electric range or \$1.25 for the Electrochef. If you decide to keep the range, your month ly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our expense.

Electric cooking is not expensive, WE WANT YOU TO SEE JUST HOW MUCH IT REALLY COSTS. We want you to try the range for yourself, to enjoy its advantages in your own kitchen. And once you have known the delicious flavor it imparts to foods, its cleanliness, its coolness and its convenience, we believe that you will never again go back to any other method of cooking.

We will take care of applications for these trial installations in the order they are received. Send in your request early to avoid disappoints Call any Detroit Edison office.

(Single residences and multiple family dwellings up to and including four families are eligible for this offer.)

Enjoy These Advantages of Electric Cooking!

WATERLESS COOKING. With your electric range you use no water for roasts and only half a

cup for vegetables.

MODERN. Unusually attractive in design, these modern electric ranges do much to brighten and add a feeling of newmost to your entire kitchen. They are finished in smooth, lustrous provebin and spatiking metal refeatures of special importance to the woman who likes to keep things clean.

CLEAN. Electric heat is as cleft as sunlight. Imagine a store that supplies only PURE heat from a glowing wire! There is no smoke or soot to blacken utensits or soft kitchen walls and curtains. ALCHFUL Electric cooking seals in nourishing juices and natural elements in meats and vegetables. Important minerals are retained, instead of being lost in steam. Half-e-up of water is ample to cook vegetables, and there is no flavorabden residue of water to be poured down the sink when the cooking is finished.
FULL FI AUGMENT.

FULL FLAVORED. Electric cooking has a deliciously different flavor
— a natural flavor in foods. Meats derness in their own juices—and cakes are light and fine-grained, with a uniform, even texture. You must TASTE the golden, fluffy biscuits and flaky pastries that one can bake in an electric oven!

ELECTRIC COOKING COSTS LESS THAN
