NOTICE

Pressure is being brought to bear on us to increase our prices unduly, and as a last resort pickets have been placed in front of our stores with signs stating that we are cheating under the NRA and that we are unfar to tailors and labor. We have had no quarrel whatseever with labor. NRA officials have been invited to investigate these false charges against us. If we'are cheating, the Blue Eagle should be taken from us. The public has made it possible for us build our business to its present stage and we propose to be fair with the public in setting our price. We are prepared to prove that the price quoted is a fair price at this time.
