

All about us there is a great world of mental and spiritual things that are worthy of concerted wooing, ok man and woman! It is to me, compared with mere, physical things, as the music to the cold instrument, the mother's lullaby to a cold corpse. May I ever pursue its eternal call.

The World At A Glance

An Administration Club Government And The NRA Roosevelt And Tammany

By LESLIE EICHEL Central Press Staff Writer NEW YORK, Sept.—There is a real threat behind the Government's determination that the banks loosen up on credit. The Roosevelt administration holds currency inflation over their heads.

More fundamental in the inflation matter is the fact that the administration believes farm prices are lagging too much. It is the aim to have farm prices in some manner reach the 1914 level. Just how much that means may be guessed by glancing at the figures.

Gross farm income for 1933 is estimated at \$6,300,000,000. In 1914 it was \$9,000,000,000. Last year it was only \$5,200,000,000.

BOOMERANG! The Government is having its own troubles over NRA. Contractors for new public buildings have demanded \$100,000 for additional wages and shorter hours. The Treasury Department asked how \$100,000 in 23 buildings would they would proceed without additional money. Only one has said that he would.

CHECK ON TAMMANY The largest U. S. district attorney, post-mortem unfilled by the Democrats. This district is the one that includes New York City. It may not be filled before the New York majority election.

Although President Roosevelt is maintaining a neutral attitude on the election, the very fact that the post remains in the hands of a Republican, George Medaris, is dampening Tammany's enthusiasm. Medaris would not have any embarrassment if he election frauds.

WILL MORGAN RETURN? Will J. P. Morgan return to testify again before the U. S. Senate sub-committee investigating private banks and the stock market? Morgan is living at his British estate, where he goes every summer. Will he does not have to come. A Senate subpoena can't be served on him abroad. But the chances are that he will come.

Ferdinand Pecora, chief counsel for the committee, seems fairly certain that he will testify again.

Much Less Say what you will against politics, but there's less unemployment there than in any other industry.—Tacoma Ledger.

RELIEF SEWER COST FIGURED

Corson Estimates Expense Of Short Adams Drain At \$4,853

A 350-foot relief sewer on Adams road between Lincoln and Woodward avenues could be constructed at a cost of \$4,853.20, it was estimated by Harold H. Corson, city engineer and acting treasurer, in a report submitted to the Commission Monday night.

The report had been asked following the appearance several weeks ago of a delegation of residents in the Adams and Villa roads district, demanding relief from flooded sewer conditions in that area.

Continues Survey Follow-up was in the form of a meeting. Corson was instructed to draw up estimates for completion of the Adams relief sewer, the Woodward road, and also of a wider Woodward avenue sewer to extend south from the River Rouge to Madison avenue along the old Grand Trunk right-of-way. Eventually, the Adams relief sewer, Adams road, and State Highway Department officials have indicated that only the north section can be considered this year.

Whether the city decides to do in the way of relief sewer construction, it will undoubtedly apply to the Federal Emergency Administration on Public Works for grants and loans under the National Recovery Act to finance the projects.

Election Needed? Whether a special election would be necessary for the insurance of bonds to cover the city's share of the Adams relief sewer project, it is determined. In his report on the Adams relief sewer Monday night, Corson has believed an election would not be necessary under the charter if the city should be permitted to issue bonds of the project, with the remaining 75 per cent to be paid by the bondholders. On this basis, the city's share would be \$1,213.30, and the property share \$3,639.90. The complete report follows:

"As per your request, I am submitting herewith a detailed estimate of the costs of constructing a relief sewer on Adams avenue from Lincoln avenue to Woodward avenue."

ESTIMATE

"Alteration of water mains, \$150; alteration of manholes, \$125; two manholes constructed, \$200; 38' lineal feet of 48-inch R. C. P. in trench, \$512; 312' lineal feet of 48-inch R. C. P. in trench, \$3,170; 17' lineal feet of 30-inch R. C. P. in trench, \$85; 10' lineal feet of 30-inch R. C. P. in tunnel, \$90; repairing driveways, \$60. Total construction cost, \$4,412; engineering and contingencies, 10 per cent, \$441.20. Total estimated cost of project, \$4,853.20.

The charter provides that not less than 15 per cent of the cost shall be borne by the city. It also provides that unless there are funds on hand appropriated for such purpose, no part of the cost in excess of 25 per cent shall be borne by the city unless approved by an election.

Distribution of Cost

"As this is a true relief line, the equitable method of distributing that part of the cost assessable against benefited property would be on an area basis. As the city street areas contribute to the run-off, the city should pay for these areas on the same basis as the other areas would be between 20 and 25 per cent of the benefited area.

"It is therefore manifestly

Tom Brown, at 20, Gives Self 2 Years To Succeed

And If Hollywood Doesn't Want Him, He'll Be A Doctor

By ALLEN TENNY Among the most promising of Hollywood's younger stars is a good-natured, broad-shouldered, slightly pug-nosed chap of 20 who desires nothing more than to make a success in motion pictures but is wise enough—even at 20—to know that success is some times a highly elusive commodity and prepared even now to face the possibility of being shown the way out.

He is Tom Brown, star of "Tom Brown of Culver" and familiar to film fans for appearances in several other pictures, who made four personal appearances at the Birmingham theater over the week-end as the second in the current list of Hollywood guest stars being brought to the Detroit area.

Gives Self Two Years Next Tuesday, when he is 21, Tom is to give himself two years to make a success in pictures. Tom said following his last appearance here Sunday night, "I'm satisfied if I'm doing good work by then and getting good parts, but if I'm not, I'm going to throw

Puzzle Contest End Draws Near Puzzlers, one and all, should be generally downcast this week as they await the solution to the Eccentric's "Puzzle That Pays" contest go unanswered.

The solution was particularly simple, and the prizes unusually attractive. The answers were: East Maple Gas Company, 992 East Maple avenue; Axler's Laundry and Dry Cleaning, 1133 East Maple; Mrs. Marjorie E. Fyfe, 468 West Lincoln avenue; Mrs. Caroline Eskridge, 1731 Holland avenue; a new entrant, won the prize by writing "I'm sorry."

where he received the equivalent of a high school education, and then went two years to Brown Preparatory School. Not only does he know what he's going to study if success hides out from him in Hollywood, but he knows where he's going to study it—Harvard Medical School.

Made Debut at Three If experience has anything to do with making a go of things in the acting profession, however, Tom will have no need of studying to medicine. The son of Har-

Tom Brown the whole thing over and be a doctor.

He meant every word of it, too, did this young man whose full-sized smile and genial manner class him immediately as one of the "regulars," but who at the same time is serious-minded to the point of having everything already pretty well figured out in advance.

Born in New York, he attended the Professional Children's School

JACK MULHALL IS NEXT GUEST STAR Jack Mulhall, who has appeared in more than 100 films, including both silent and talking productions, will be the guest star at the Birmingham Theater this week-end. He will appear on the stage at 5 P. M. and again at 8 P. M. on both Saturday and Sunday. Mulhall was last seen in the local screen as one of "The Three Musketeers" in a serial of that name.

He has received the equivalent of a high school education, and then went two years to Brown Preparatory School. Not only does he know what he's going to study if success hides out from him in Hollywood, but he knows where he's going to study it—Harvard Medical School.

Made Debut at Three If experience has anything to do with making a go of things in the acting profession, however, Tom will have no need of studying to medicine. The son of Har-

impossible to distribute the cost of this project on a basis that both observes the spirit of that part of the charter that calls for a flat city contribution and also observes the equity of a distribution of the remainder of the cost on a basis of run-off, without the approval of an election, which would add to the cost of the project.

It is suggested, therefore, that the payment by the city of a flat 25 per cent and the distribution of the remaining 75 per cent over a privately owned area benefited will be a method that will come the nearest to observing the requirements of both the charter and of a rational method of benefit. The following figures are based on this suggestion:

Estimated cost, \$4,853.20 less the city share of 25 per cent, \$1,213.30; private property share of 75 per cent, \$3,639.90.

Peritt Property Shares

"Assuming that the benefited property owned by Mr. Peritt (Robert S. Peritt on Adams road) will share in the cost, this would mean a cost to private property of approximately 90 cents per 1,000 square feet, or about \$9.00 for a lot of 120 foot lot.

and Marie Francis Brown, well known years ago in vaudeville and musical comedy, he has been in close touch with the theater for 17 of his 20 years.

He made his first appearance in a New Orleans theater at the age of three when he toddled down the aisle and clambered up on the stage to sing "Mississipp". Since that time, besides his motion picture work, he has appeared in numerous radio productions.

He has his heroes in Hollywood to pattern after—plenty of them. There are Lee Tracy, Spencer Tracy, Bobby Armstrong, Jimmy Gleason, James Cagney—specialty by Cagney.

Back to Hollywood— "I like that tough stuff—I really do," he said, "providing, of course, you can get away with it. Like Cagney can. He certainly is a swell actor—and a swell fellow, too." Tom's ambition right now, he said, is to find a producer who will cast him in a typical Cagney role in a college picture.

Tom will return to Hollywood again shortly after his personal appearance engagement this week in Detroit. He has been signed to make three pictures for R-K-O, the first of which will be "Wild Birds," in which he will appear with Dorothy Jordan.

BAG, CLOTHING STORE R. Louis Gorman, 15804 Ashton road, Detroit, reported to Birmingham police Saturday night that theft of a traveling bag from his automobile. The bag contained \$500 in cash, a shirt and a pair of socks. The bag was taken while the car was parked for an hour at the corner of Aspen and West Maple roads, Gorman said.
