## Myers Says Mothers Need Praise Instead Of Censure

By GARRY C. MYERS, PH. D. Head Department Parent Education Cleveland College, Western Reserve University

A MOTHER WRITES: "Dear Dr. Myers: At a recent meeting of our Mothers' club we were discussing 'Discipline as the topic of our next meeting. It was my suggestion that we stress all-around discipline of mothers. From my limited experience I have observed that children are being too severely disciplined. I am sure that mothers are doing more than to discipline their children. They are not consistent, and they are not in the eyes of their children. Do you think this is true?"

### For a "Thank You" at our CLINIC your battery gets its SPRING BATH and X-RAY

"These diels give you inside information that your battery can't read!"

CALLING our modern battery department a "clinic" is no joke. Actually it prolongs to ripe old age the life of many a patient. Most batteries die prematurely — from neglect, external and internal. Don't let your battery do that!

We'll pull it out—wash off harmful green stuff, caked grease and dirt—then "X-Ray" it on our Analyzer. You can see—on simple

dials—exactly how good each cell is—inside information a hydrometer can't reveal. We'll apply a corrosion-preventive to terminals—add pure water to correct level—replace the battery lightly in your car ready for your driving this spring.

Your "thank you" pays us—we rely on treating people right to win them as steady customers.
