Labor Day To Be 'Play Day' At Oakland County Clubs

Labor Day will be in reality "play day" at the country clubs in Oakland County. As the majority have planned special events, the last holiday weekend of the season will be duly celebrated.

Pine Lake Country Club will make the most of the holiday. Its festivities will include a mixed driving contest, mixed approaching and putting contest, tennis matches for members at 2 P. M., swimming and diving contests for juniors at 4 P. M., and a special Labor Day dinner. The club plans additional events for the week-end, as the club golf championship finals will be played by William E. Crawford and Fred J. Wurster, Saturday at 9:30 A. M. The same evening there will be a dinner dance at the club at 6:30.

Punch and Judy will stage a little domestic warfare in a show to be presented for the amusement of juniors at Orchard Lake Country Club. There will be a sleight-of-hand artist to provide a few thrills for the young and uninitiated. Golf events during the day, and a tea dance from 4 until 8 P. M., will offer attractions for older members. There will also be the regular club dinner. A tea dance will take the place of the dinner dance on Saturday evening. Oakland Hills Country Club has a rather full schedule of golf events for the earlier part of Labor Day. A program arranged for the children, including races and golf stunts, will be staged at 4 P.

M. to be followed by dinner for children at 6 P. M.

The regular dinner dance for members will begin at 8:30 and continue until midnight. There will be no dance at the club Saturday evening.

Dinner dances on both Saturday and Monday evenings will be the weekend inducements at Bloomfield Hills Country Club for members and their guests.

Forest Lake Country Club has no special plans for Monday aside from golfing, swimming and the usual club dinner. The week-end dinner dance will be held on Saturday evening.

At the Birmingham Golf and Country Club there will be a two-ball foursome, and the regular club dinner.

Plans Announced For Flower Show

Each year for several years past the Bloomfield Hills and District Horticultural Society has staged a fall showing of flowers, fruits and vegetables, which has always aroused the interest of the entire community. This year the show will be held at the Community House on Sept. 15.

Rules of the show provide that all exhibits must be grown out-of-doors. Of the 125 classes included in the schedule, only 15 will be open to non-members. The exhibits will be grouped in classes, including those for arrangements of cut flowers, perennials in vases, annuals in containers grown out-of-doors, dahlias, gladioli, fruits and vegetables. Judges for the event are Harry Cartwright, Richard Sayward and Tom Pearson. George Leslie, secretary of the Society, and caretaker at Brookside School Creekbrook, is in charge of publicity.

Mrs. Marjorie Unger of Ferndale avenue, who left for Mexico City in June, returned Friday.

Mrs. Fred S. Ross of Willets street will entertain members of Mrs. D. C. James' division of the Women's Union of the First Presbyterian Church at her home next Wednesday. The other four divisions will meet at the homes of members on Wednesday, Sept. 12.

CONTRACT BRIDGE

Written For Central Press and The Birmingham Eccentric By E. V. SHEPARD FAMOUS BRIDGE TEACHER

PROFITABLE THINKING WHIST TRAINING taught its followers to smell out the location of missing cards which playing with the exposed dummy does not offer. Two of the best known of the "whisters" played North and South (John W. Weston and William B. Gower). They alone were vulnerable. Mr. Weston opened the bidding with 1-Heart. West overcalled with 2-Diamonds. Gower went 2-Hearts. To feel out his partner, Weston bid 3-Clubs, to show two short biddable suits. West bid 3-Diamonds, North carefully thought over the situation, with its possibilities of dropping all opposing trumps, or of catching the missing honor in the East hand, then bid game.

One of our best players once said: "When Weston thinks, he always saves a trick." He switched to his Ace of clubs, to test out hand partner. Most players never would think of such a thing. The 8 fell at declarer's left. The J covered the 2 of clubs. Dummy, at whom the trick. The 4 of hearts was led from dummy. The 3 appeared at the right. Weston paused, then he went the Ace, capturing West's diamond. Dummy's 9 won the clearing trick in hearts.

Two club tricks were run off, ending that suit. West was put in the lead with dummy's last diamond. West held neither heart nor club to lead, and neither declarer nor dummy held another diamond. The stripping process had been completed.

West had to lead a diamond, allowing one member of the declaring team to ruff, while the other discarded, or else West had to lead a spade, that could beat the contract only in case East held the K-J, back of dummy's Q. Like any trained player, Weston knew that he must win one spade trick if he obliged an adversary to lead that suit. With the A-K-10-9 missing, probably opponents would win three tricks. If South had to lead the suit, the strategy had been, first to capture the missing Q of trumps. Next to oblige opponents to lead the dangerous spade suit. West led his Ace of spades. East gave him a comec-on. East won the third defensive trick. South retraced his rubber, to profitable thinking.

This Farm Drudgery Was Never Meant for Human Shoulders...

CARRYING 50 TONS OF WATER 100 MILES A YEAR!

To the housewife falls much of the task of pumping and carrying water for household uses. Under average conditions, in one year, she will pump from 25 to 50 tons of water and will walk a distance of 30 to 100 miles to carry this water. All this needless drudgery can be eliminated—all these countless steps saved—all this back breaking toil forever ended by the installation of a running water system. If you have electric power on your farm, you may have your own completely automatic water system and enjoy the same comfort and convenience as if you were living in the city. The operating cost is but a few cents a week.

A running water system is a profitable investment for your farm. Consider these advantages that running water brings you: HEALTH—Plenty of water is essential for health. An abundant supply is a household necessity. It is the answer to the sewerage disposal problem. PROTECTION—Running water furnished by a dependable water system protects you from fire. PROFIT—Since milk is 85% water, a constant supply is necessary for maximum milk production. Hops will also fatten more quickly if a plentiful supply of water is available.

The operating cost of a running water system is but a few cents a week. Install a water system NOW. Choose a pump big enough for your present and future requirements, and then install outlets or faucets for the kitchen, laundry, bath and garden.

Distributors of pumping equipment in this territory will gladly advise you as to the equipment best suited for your individual needs. Or call The Detroit Edison Company for a complete list of distributors. Attend to this matter TODAY.
