Keep your DOG in condition during hot weather with GAINES FOODS

There are sensational improvements in Gaines Foods, for they contain stabilized vitamins and starch-splitting enzymes. Competition said it couldn't be done, but Gaines has done it in GAINES KRUNCHON.

Everyone knows that you can't raise puppies—nor keep grown dogs in condition without an abundance of vitamins. The new, patented process seals vitamins A, D and G so that they come to the feeder as fresh and as powerful to-do-good as when they leave the mixer.

Digestion is started in the feeding pan, for the new starch splitting enzymes help the dog digest cereals and vegetables. In short, these enzymes start digestion in the feeding pan!

WE DELIVER

ELECTRIC HOT WATER
for THE KITCHEN THE LAUNDRY THE BATH
for only **10c A DAY**

A new arrangement now brings you Electric Hot Water service for your home at a low rate. By taking advantage of our flat annual rate for year round service, you can enjoy 60 gallons of hot water for 10c a day, and 80 gallons for 12c. Should you desire to use the heater only during the summer months, you may also obtain a seasonal rate, somewhat higher—about 13c a day for 60 gallons, and 16c a day for 80 gallons.

The low rate for this service is made possible through a specially designed heater which stores the hot water during the night hours. In this way, you have a measured supply of hot water at a definite cost per day.

TAKE A VACATION FROM DRYING DISHES
Rinse them with plenty of HOT WATER and let stand

DRYING dishes is a hot and irksome task that can be entirely eliminated. When you have piping hot water on tap, you need only rinse your dishes and let them stand. The Cleanliness Institute in a bacteriological study of dish-washing has found that rinsing dishes with very hot water actually leaves them cleaner than wiping with an ordinary dish towel.

This is only one of the many helpful uses for a constant and abundant supply of hot water. Here are a few practical suggestions to lighten daily tasks and make your housework easier and pleasanter:

- ¶ Fresh stains of coffee, tea and various fruits yield to hot water; stretch cloth in embroidery hoops and hold under the running faucet.
- ¶ Starting with boiling water shortens the time of cooking vegetables, decreases the loss of food value and helps to retain their color.
- ¶ To keep electric lamp bulbs at their brightest, dust them frequently and wash in lukewarm, soapy water every few months. Wash only the glass bulb and be sure that it is completely dry before screwing it back into the fixture.

You may rent or buy an electric water heater, whichever you choose. Rental rates for heaters are low, and if you prefer to buy the heater, convenient monthly terms may be arranged. Telephone or bring your order to any Detroit Edison office.

Mr. and Mrs. C. R. Bartholomew of Tulsa, Okla., and their children, Carl and Carl, Jr., are the guests of Mr. Bartholomew's brother, Earl Bartholomew and Mrs. Bartholomew of Yarmouth road. Saturday evening, Mr. and Mrs. Bartholomew were hosts at a bridge and buffet supper in honor of their house guests. Those included were Mr. and Mrs. Charles D. Hawley, Mr. and Mrs. Harold J. Chalk, Mr. and Mrs. Cleveland Walcott, and from Detroit, Mr. and Mrs. Homer Bedo, Mr. and Mrs. William O. Schulz, Mr. and Mrs. Darward Rossmann, and George Kreyer.
