and THAT IS CERTAIN

When he hits, Herr Hitler hits hard—just like his nature. From this distance, it looks as though the leader of the storm, eventually if not sooner, for a hard fall, too.

As he goes about the country, inspecting the huge power projects which his administration is planning, the President, Mr. Hoover, President Roosevelt can honestly say, without profanity, "As sure as the sun rises, the United States has bigger and better dams in it than any nation in the whole world."

An Atlanta judge has severely criticized certain motion pictures for their baroque upon the American flag. We agree with the judge, but also suggest that he turn his attacks upon the pictures of the "American flag" upon the Courts.
