> IN YOUR KITCHEN PROVE FOR YOURSELF THAT ELECTRIC COOKING IS

COMFORTABLE COOKING

You have probably heard a great deal about the edvantages of an electric range—the feature of COOLNESS,

among others. Here is your chance to fortable your kitchen is—even in the varmest weather—when you do your cooking electrically. You can use the electric oven for Laking or roasting and it will not noticeably raise the temperature of the room. This is because the oven is well-insulated and semi-sealed: There is no stovepipe to carry the hot air from four oven through the kitchen, heating up the atmosphere, as in a fuel-burning stove. And on the surface units, the heat goes directly from the electric element to the cooking mensil. All of the heat is used for cooking. Little can e-cape into the room, and there is no hot flame to heat the surrounding air and make the kitchen uncomfortable.

Electric cooking is COOL cooking.

We want you to try an electric range in your own kitchen. We want you to enjoy cool electric cooling without make ing any investment or being under any, obligation. So we have arranged a special trial offer. We will install an electric range in your kitchen without initial charge, and let you use it for six months, removing it without charge if you do not removing it without charge if you do not like it. During the trial period, you pay for the service as registered by your mater, plus a monthly charge of \$1 for the range. Your monthly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our excesses. range will be removed at our expense; Since this trial plan was begun a short time ago, over 2500 of our customers have taken advantage of this offer. Send in your application for a trial range today!
