Corinne Krentler Becomes Bride Of Charles Marcotte At Autumn Ceremony

A lovely autumn wedding was solemnized at the home of Mr. and Mrs. Edwin G. Krentler of Pleasant Ridge Saturday evening, when their daughter, Miss Corinne Elizabeth Krentler, became the bride of Charles Henry Marcotte, son of Mrs. R. E. Marcotte of East Lincoln avenue, and the late Mr. Marcotte.

The nuptial service was read at 8:30 o'clock by the Rev. Warner L. Forsyth, rector of St. James' Episcopal Church. The wedding day also marked the 25th wedding anniversary of the bride's parents.

Miss Krentler chose to wear her mother's wedding gown of ivory satin and lace, with the lace yoke outlined in seed pearls. Her finger ring which was held in place by a thread lace cap, and a floral bouquet of gardenias and white sweet peas completed her costume.

Miss Ruth Krentler, who attended her sister as maid of honor, wore a gown of turquoise blue crepe trimmed with brown chiffon flowers, and small hat of brown tulle. The bridesmaids, Miss Mary Browne and Miss Margaret Best, were gowned alike in frocks made similar to that of the honor maid, but in dusty pink with brown accessories. All attendants carried loose arm bouquets of bronze chrysanthemums tied with brown satin ribbon.

Thomas B. Klingensmith was best man, and the ushers, Mrs. Charles Klingensmith, Charles L. Winningham, and Robert Godfrey of Kalamazoo, Michigan.

Following a reception, Mr. and Mrs. Marcotte left on a motor trip to the East. On their return, they will reside at 122 Lincoln avenue.

OUR CHILD AND THE SCHOOL

By Dr. ALLEN G. BELLAND
Chief School and Health Inspector
New Jersey State Department of Public Instruction

THE FOLLOW UP
Last week I discussed the health examination. Obviously, no procedure of this kind will be of any use unless something is done about it. It means nothing unless it results in a list of defects and diseases. That is only the first step. It's purpose is to find out where children are handicapped. Having that knowledge, it is possible to stop the defects and diseases. Perhaps you have had a visit from a school nurse or you may have received a notice or a letter telling of some physical handicap found in your child at the examination. These are the two most commonly used types of follow-up. But, like the examination, they are useless unless something is done about it. Here is where you can definitely help the school to do a better educational job, but more to the point it is your chance to give your child a better educational opportunity. Correct those conditions and maybe you are removing obstacles to learning. Perhaps you will turn unhappiness into happiness, or remove the cause of unhappiness. At any rate, it is an obligation that should never be disregarded. Who knows what later expense and loss may be avoided?

How important is the school health examination?
This question has no definite answer.
