LETTERS GIVEN AT CRANBROOK

13 Varsity Awards Made in Football, 11 in Soccer; 1935 Captains Named

The awarding of letters and numerals in football and soccer, and the election of captains in those sports for next season took place last week at Cranbrook School.

At a meeting of the Cranbrook Athletic Awards Committee, varsity letters were awarded to 12 football players and the manager, and to 11 soccer players. The grid lettermen include seven linemen and five backs. In addition, five other players received numerals.

The comparatively small number of lettermen in each sport this year is in accordance with a new Cranbrook policy that aims towards keeping the percentage of the student body that are letter winners from becoming too large.

Willard Parker was elected captain of the 1935 Cranbrook eleven, it was announced after a meeting of the football lettermen. Parker was placed in the left end position early in the season, and since then played regularly. He did much of the Crage kick-off and extra point kicking, and played a particularly fine game last year. The lineup consists of Howard and Don Clark, guards; James Clark and Larry Thomas, tackles; Ray Clark and Bob Pilekns, halfbacks; Martin, guard; Harris, center; and Johnny Owens, Clifford McBride, De Beandier and Harrington or Gabelberg, backs.

The officials will be R. L. Ritter, Purdue University, referee; Robert Peel, Michigan State Normal College, umpire, and "Red" Higgins, also of Michigan State Normal.

As has been customary for the past several years, Baldwin senior

The complete list of letter and numeral winners follows: Football letters—Waldo Bird, John Gilray, George Hunt, David Judson, Dorr Lovett, Marshall McCuen, Newton McCue, James Packard, Willard Parker, Victor Pattengill, captain, James Rubensburg, Henry Smith and William Hutchinson, manager.

Soccer numerals—Richard D. Kern, John Leighton, Williams Markey, Edwin Mosher, Harry Wise.

Soccer letters—Robert Craig, William Hargreaves, Richard Hitchcock, Frank Hoffman, Stephen Johnson, Webster McKinley, John McPherson, James Talman, captain, Thomas Tillev, Rodman Turner and James Watkins.

ARTIST SUPPLIES GREEN'S

At LEONARD'S ELECTRIC shop I had difficulty getting past the window. Have you seen the little hand-car, piloted by Minnie and Mickey Mouse, and the electric trains and boats? Once inside, I was captivated by an electric clock for the nursery, in the shape of a ridiculous yellow chick. One modernistic clock has the new dial system of recording the hours and minutes—no more alighting that you read the clock wrong. We've had indirect lighting for some time, but the I. E. S. floor and table lamps are a still newer improvement. One bulb gives you direct and indirect light, and also varying degrees of brightness.

Being well-grounded means paying attention to tail such details as the heels of your shoes. The most perfect costume can be ruined by ruffled hems. Take your shoes to the QUEEN'S SHOE REPAIR for resoling or reheeling, and while you are getting a shine would be a good time to have those extra keys made.

Are you thinking of moving? I was looking over the list of homes that H. B. E. KE has to offer, and whether it's a "cottage small" or an estate you are after, am sure they can fill the bill. Don't wear yourself out looking around, but go straight to the H. B. E. BLAKE office, where only those homes meeting your demands will be shown.

WE HEARD IT SAID BY—
John Stahl, architect, Bloomfield Hills: "If the average architect could proceed on the same basis as I am figuring on, he could have work enough to last him two years."

SUIT WOULD RESTRAIN LOCAL BUSINESS FIRM
Temporary and permanent injunctions to restrain Levinson's Department Store from doing further business in Birmingham are sought in a suit filed in Oakland County Circuit Court by L. E. Davidson and his associates. Davidson's, local women's and children's wearing apparel shop.

The plaintiffs, claim Morris Levinson is the principal figure in Bernard Sanders, Inc., a corporation doing business here under the name of Levinson's Department Store. They further claim they purchased Levinson's drug goods business Dec. 22, 1925, for \$18,000, and that one of the conditions of the purchase was that Levinson was not to engage in a similar line of trade within a 25 miles radius of Birmingham for 25 years.

(Concluded 1 from Page 1)

and Ted Hanzford, all of whom will have graduated before the next season is around.

Three time winners, Coach Miles W. Robinson named five as probable members of his starting lineup. The lineup consists of Howard and Don Clark, guards; James Clark and Larry Thomas, tackles; Ray Clark and Bob Pilekns, halfbacks; Martin, guard; Harris, center; and Johnny Owens, Clifford McBride, De Beandier and Harrington or Gabelberg, backs.

CITIZEN TO DELAY SPREAD OF TAX
Commission Instructs Assessor Not To Assess State, County Levies

The City Commission last night adopted a resolution instructing City Assessor Donald G. Egbert not to spread 1934 state and county taxes in Birmingham "until the validity" of the county's equalized valuations have been established.

The resolution is similar to one adopted by the Bloomfield Hills Commission two weeks ago, and both are companion measures to suits which have been filed by the two cities in Circuit Court, protesting against the 1934 valuations as determined by the Oakland County Board of Supervisors and the State Tax Commission.

The resolution will have no effect on the collection of school taxes, which are spread on assessed, rather than equalized, valuations. School tax statements are already being prepared for the city unless the suits have been disposed of before Dec. 9, they will be sent out on that date. The commission was informed last night by City Manager James H. Corry and Treasurer Harold W. Corson.

This will necessitate a second meeting of the committee, after the state and county tax statements. A printed explanation of the double marking will probably be inserted in the school statements, to avoid confusion in the minds of taxpayers.

high students will hold their annual meeting Wednesday night at the Birmingham Theater, as guests of the management.

In Birmingham Stores
With The SHOPPING REPORTER

"Imagine my reactions when I found those charming girls at the TWIN SHOP, the other day, smelling various articles of costume jewelry. It's quite all right though, because these particular clips and bracelets are made of sandalwood and brass, and the wood really has the most intriguing odor. (Your shopping reporter went about looking for some unusual things, holding a wadded cloth against her nose.) For the mine who likes everything "just so," there's a lovely white moire cigarette case and compact to match. All the ladies will be interested in the new shipment of Hollywood Cinema Fashions (Anne Wellesley to you) that have just arrived. Each dress is of a distinctive style, having been designed for such famous stars as Janet Gaynor and Carole Lombard.

If jewelry is too personal, and the proverbial flowers and candy not person enough, WILSON'S DRUG STORE has the ideal gift—a blue satin, crescent-shaped box studded with stars, which contains mid lady's favorite beauty aids. Nestled in cloth of silver are a bottle of Evening in Paris perfume, powder, a compact, and lipstick. If mid lady travels, the manicure sets put out by Cutex and Glazo should make a hit. If she is an avid reader, after receiving either of these gifts, you'd better get a new girl.

Drunk Driver Fined, 2 Cases Continued
Detroit Pays \$50; Embarrassment, Attempted Attack, Examinations Postponed

A man was fined for drunk driving, and two cases scheduled for examination were continued for a week in Justice Forbes S. Hasell's court Friday morning.

The fine was paid by Dan Butler, 35 years old, of the Edison Hotel, Detroit, who was arrested here Nov. 10 for drunk driving. He changed his plea to guilty after first having denied the charge and spending six days in jail awaiting his trial. He was assessed \$50 and his driver's license was revoked.

At the request of the prosecuting attorney, Royce E. Borton, 26 years old, of 26345 Kenwood, embarking \$330.40 from the Maxwell Farms Dairy, was continued until 9 A. M. Friday, Nov. 30, at the request of the prosecutor. Borton formerly worked as a milkman for the dairy, and is accused of withholding collections from customers.

The case of Fred E. Wilson, 57 years old, of 982 Stanley street, charged with attempted assault, was also continued to Nov. 30, 11 A. M. The continuation was allowed because the complainant, a waitress formerly employed in Wilson's beer garden and restaurant, was unable to appear in court. Wilson was charged with jumping out of his car when she attempted to attack her.

Borton's bond of \$2,000 and Wilson's bond of \$1,000 were both continued in effect.

Paul Harsch Gives Lecture On Science
The eternal Christ will appear and reappear to human consciousness so long as the human sense of time shall endure, declared Paul A. Harsch, a member of the Board of Lectureship of the Mother Church, the First Church of Christ, Scientist, in Boston, Mass., in a free lecture given Sunday afternoon in the auditorium of Baldwin High School.

Mr. Harsch was introduced by Fred H. Rollins, of the First Church of Christ, Scientist, of Birmingham, which co-sponsored the lecture.

A detailed account of the lecture will be published in next week's Eccentric.

(Concluded 2 from Page 1)
Day, they would schedule some other team.

"We are considering the religious angle in our discussions about shifting the date," he continued. "Personally, I would like to see the game played earlier in the season. That would not only relieve us of criticism, but it would give the boys a chance to rest before they started basketball practice, and that, I believe, would improve the caliber of both teams." He mentioned the first of September to the last of November as a long grind for the football players.

WE HEARD IT SAID BY—
Walter Elliott, Townsend street, officer of Detroit's Merchants' Credit Bureau: "Retail business throughout the country has been better this fall than for a long time. Credit bureau statistics reveal that people are paying their obligations more promptly, too."

(Concluded 3 from Page 1)
glad to donate this, and with other little aids the tree can be properly embellished.

"A call should then be sent to all the people of Oakland county to assemble at the tree and sing and praises to God for the good things that he has placed in the world, and also caution to Him that we are a nation of decadent neutrals because we do not have the use of these things."

"Yours for an honest Christmas in every home."

(Concluded 4 from Page 1)
of the Birmingham police department was required to display all his powers of ingenuity and persistence, as well as considerable physical agility, last Thursday morning in catching a squirrel which crawled into a drain pipe leading from the roof of the home of Mrs. James Campbell, 664 Purdy street, and emerged in the basement where the pipe comes to an end over an open stairway. George didn't attempt to follow the squirrel down the pipe, but he did do some precarious crawling around on the basement rafters in pursuit of the elusive creature, and even then he had to have the assistance of Detective Earl Moody before the animal could be steered into a corner and safely and conclusively captured.

The premarital ambitions of two 10-year-old Pontiac adven-

urers who turned their backs on school to walk to Birmingham were cut short Friday afternoon at Bloomfield Hills, where Fire Chief Russell V. Moore encountered them, listened to the sags of their trip that far, and then made them wait until Pontiac officers came to return them to their homes. The girls were Dorothy Saunders, 420 Lowell street, and Ruth Hicks, 424 Lowell street.

Among the 36 men who enlisted at the U. S. Navy Recruiting Station in Detroit last week was Donald Frederick Steffen, of Birmingham, nephew of Walter L. Hall, 1148 Smith avenue. Steffen, who is 22 years old, enlisted for four years, and was transferred immediately to the U. S. Naval Training Station at Norfolk, Va. There he will spend 12 weeks in preliminary training before being assigned to one of the vessels of the fleet.
