MICHIGAN RAILROADS' ASSOCIATION

"We Serve Michigan"

The days of the "3 R's" have returned for 1,382,630 of Michigan's school children . . .

Railroad taxes—\$7,829,198 in 1933-34—go directly toward the education of those youngsters.
 Railroad taxes are the bulwark of our primary school fund. But now those tax payments are in danger.
 Unfair, inequitable competition, particularly from unregulated trucks, has so cut into the railroads' income that their tax payments have become a problem. If this situation continues those tax payments inevitably must stop.
 To the extent that the railroads are destroyed as a source of tax revenue the payments they now make will have to fall upon the citizen.
 Can he afford, then, to permit the job of transportation to be shifted largely from a tax-yielding agency—the railroad—to a tax-consuming form of transport? Is he ready to take on this added tax burden?
 The railroad problem is deplorable, but not beyond remedy. It can be solved within our legislatures.
 Our next Michigan legislature should see that motor trucks and buses are taxed to meet fully the costs to the public which their operation entails; that they submit to regulations comparable with those governing the railroads, and, in addition, that they contribute equitably to the general expense of government.
 Michigan and the "3R's" need the railroads. And the railroads need constructive legislation. It is only fair that they be given at least an equal chance.
