A MODERN FOOD MARKET

The Birmingham Economy Market, holding its Grand Opening today, Friday and Saturday in its new building at 303-311 East Maple Avenue, is fully equipped to render efficient and economical service to its customers. All steel shelves, counters, display racks and tables, an innovation in food merchandising, together with complete new refrigeration equipment, modern lighting, sanitary floors and adequate storage space make the new market an attractive, as well as a safe place, in which to shop.

Mr. Jack Nash, in charge of the grocery section, will have special demonstrators on the floor during the Grand Opening days, and will feature special prices for many products. Mr. Art Roberts, head of the meat department, will also feature bargains in many choice cuts.

The Birmingham Economy Market is the exclusive distributor for Grosse Pointe products in Birmingham. As a member of the Good Will Campaign, its management has joined in the movement to make this community a better and more desirable place in which to shop.

The modern metal equipment was furnished by the All Metal Store Equipment Company, of Detroit. The Modern Electric and Refrigerating company provided the cooling system and cold storage boxes. Sanitary, hard surface flooring was laid by the Gibraltar Flooring company. Chissus Bros. were the builders, H. Amsbary doing the carpentry work on the interior.
