DEMOYAYS TOP LEAGUE AGAIN

Beat Shire's As Hillbillies Down Mulholland's; Lions Win First

The DeMoyays, back in undisturbed possession of first place in the Birmingham Athletic Club basketball league, have only to dispose of the Birmingham Fruit quintet tonight to maintain their leadership for at least another week.

The Hillbillies, tied with Mulholland's for second place in the standings, draw a bye on tonight's schedule, and Mulholland's will play Williams' Boot Shop. Even if the DeMoyays should lose and Mulholland's win, these two teams would be tied for top place, and it's not likely the DeMoyays will lose, since their opponents for tonight have turned in only one victory all season. The Lions Club will clash with Shire's Market in the third game of tonight's program.

The DeMoyays and Hillbillies were the winners in the feature games last Thursday night, the DeMoyays disposing of Shire's Market, 31 to 24, and the Hillbillies downing Mulholland's, 28 to 18. In the third game, the DeMoyays rolled up a 20 to 6 lead in the first half of their game with Shire's, and were able to coast the rest of the way. The Hillbillies had an easier time than expected with Mulholland's. Presenting a new lineup, with Boyce Ricketts at center and Rod Cox at guard, they were nearly always in control of the situation, although waiting until the last quarter to move into a comfortable scoring lead. Ricketts was high scorer with five field goals.

The Lions Club-Birmingham Fruit affair was close all the way, with the score knotted at the half, 15 all. Hallock led the Lions' offense, accounting for six baskets and a free throw. The Lions were forced to finish the game with only four players.

There is no substitute for the services of your Eyesight Specialist!

AN eyesight specialist can lengthen the life of eyes young and old. He also knows that correct lighting is essential to perfect vision. Unless you use exactly the right amount of light for each seeing task—unless you have enough light for comfortable, EASY SEEING—eyestrain will result and your eyes will be injured. We suggest these four simple rules to guide you in obtaining good lighting for your home: (1) Use correct size lamp bulbs—"WATTS". (In table and floor lamps, use 40 watts in each socket for 3-socket lamps; 60 watts in 2-socket lamps; 100 watts in 1-socket lamps.) (2) Use SHADES on all lamp bulbs to prevent GLARE. (3) Use shades with light-colored linings to get the most light. Wide shades, open at the top, are best. (4) Have at least one-tenth, as much light in the rest of the room as you have on your book, newspaper, sewing, etc.
