Financing Our Schools

February has been designated as "Michigan Education Month" by Dr Paul F. Veelker, Stare uperstreadent, of public instruction. During that month Dr. Veelker, suggests that confront Michigan free decision.

Dr. Veelker's suggestion is a simily one, for the solution.

Dr. Veelker's suggestion is a simily one, for the solution of the solution, and then bring their influence to bear among our State Legislatory at Laming, they may find soothing balm for their affliction.

Mere hysteria about the situation, however, will not produce results. Whatever each find with the mathematical law which—anywhere are results. Tottering Reality Values
Real estate may be the most valuable asset of the himad rince, but, when is gets into the class of pure uperulation, its value is most unstable. As a sample, let usersind you that a certain Woodward avenue lot, 60 by 176 feet, on a corner, was purchased 15 years ago for exactly \$3,00,000. Eight years ago that piece of property sold for \$16,000.00; a year later, in the midst of the real estate boom, it sold for \$510,000.00, on a contract. It is now offered for \$51,800.00, half of the real estate boom, it sold for \$510,000.00, and of the real estate boom, it sold for \$510,000.00; a year later, in the midst him to the real estate boom, it sold for \$510,000.00; a year later, in the midst him to the real estate boom, it sold for \$510,000.00; a year later, in the midst him to the real estate boom, it sold for \$510,000.00; a year later, in the midst him to the real with the sold for \$510,000.00; a year later, in the midst him to the real was a state boom, it sold for \$510,000.00; a year later, in the midst him to the sold for \$510,000.00; a year later, in the midst him to the sold for \$510,000.00; a year later, in the midst him to sold for \$510,000.00; a year later, in the midst him to sold for \$510,000.00; and in the sold for \$510,000.00; a year later, in the midst him to sold for \$510,000.00; and in the sold for \$510,000.00; and for the real estate boom, it sold for \$510,000.00; and the sold fo

Panel Discussions

The Birmingham Branches of the American Association of University Women and the Léague of Women Voters are to be congratulated for spondoring the jury panel discussion on the school finance problem held at Baldwin High School Wednesday evening of last week. We understand that this form of discussion is a comparatively new educational development, and it shis first one was fair-tample of what the other might be, we believe Birmingham should have more of themsulating new thought, we know of no other oral device control of the state of the st

If this criticism is just, it is not one, nevertheless, hich should prevent any group from bringing as any of this type of debates to Birmingham in the ture as can be successfully engineered. The realm it he intellect extrainty is not to be neglected, and the try panel discussion can always be supplemented, rough other devices, with enough of the required amatics, ballyhoo and band-blaring to transform its ras into action.

Third: I will spread cheer in my locality by repeating complimentary comments, about my city, state of country. There are sufficient knockers outside the boundaries. Also, I will limit the circulation of constructive criticism by failing to be a good transmitter. Fourth: I'll patronize local merchants. The more their volume of business is increased, the greater will be their facilities for serving me.

Fifth: I'm lip participate in my community projects, and lend them my support. As a citizen, I owe allegance to my local government. If I did not desire the privileges and protection offered by an organized civic center, I would have made my home in the wide open spaces.

With these five resolutions, I'll begin 1935 with a firm intent to give my best for the good of all.

The serious minded citizen will therefore make his resolves daily habits, that will become a part of his life. No forethought will be necessary. The performance of his resolution will be an unconscious procedure common to his daily routine.

# "MY TELEPHONE PAYS ITS WAY"

When an application is made for work, either to an employer or at an employment agency, it is very important that the applicant be able to give a telephone number at which he can be reached. For, when jobs open, the quickest and easiest way to summon workers is by telephone. Other things being equal, the applicant who has a telephone is quite likely to get first call.

Telephone service can be had for only a few cents a day. For complete information, write or visit the Telephone Business Office.
