TIRES MAY LOOK ALIKE ON THE OUTSIDE ON THE INSIDE THEY ARE DIFFERENT

the main cause of blowouts, Firestone is the main cause of blowouts. Firestone Tires are different on the inside—they are built with the patented extra process of Gum-Dipping that soaks every cord and insulates every strand with pure liquid rubber, preventing internal friction and heat. No other make of tire is Gum-Dipped.

heat. No other make of tire is Gum-Dipped.

When you realize that there were
882,000 automobile, accidents in 1934,
injuring 954,000 people and killing 30,000,
and that 43,000 of these accidents were
caused by blowouts, punctures and
skidding, you will be more interested in
the make of tires you use on your car.

Tirestone performance records again emphasize the undisputed evidence that Firestone Tires are not only blowout-proof, but give greatest protection against skidding. There are three questions and answers that will solve the problem of what tires to buy:

QUESTION 1—"Will the tread give me the greatest traction and protection against skidding?"

ANSWER—Recent tests by a leading University show that Firestone High Speed Non-Skide Iters stop a car 15% gained the many cited to the leading makes. For sight coasecutive years firestone likes have been on the winning car in the dangerous Pikes Peek Race where a skid means death. This is undisputed evidence that Firestone gives car owners greatest protection against skidding.

QUESTION 2-"Are they blowou

QUESTION 3—"Are they bloweut-proof?"

ANSWER-Friestone Gun-Dipped Tires have the most amazing records for being blowout part of any tires were more for any tires were proposed for the state of the 33 company. The proposed for the state of the 33 company to the proposed for the state of the state o

Ab Jakini drove his 5,000 pound car on Firstone Gum-Dipped Tires over the bot sail beds of Utah 3,000 miles in 1931's hours, of an overage speed of 127.2 miles per without the control of any with temperatures as high as 190, with temperatures or high as 190, with temperatures or high as 190, with the most amount of the control of any kind. These are most amount of the control of

ANSWER—Firestone High Speed I trea not only gibt you more than 50% longer wear, but lowest cost in 50% longer since the firest particle by the tough, wear-caisting made but with higher shoulders and a wider, farm reconsour. His thick, rugged, glebenfully drained tread is held securely to the Guenette or abstraction of two extra levels of cost under the tread. This is a special construction feature got used in any other time. Unequalse militage records by thousands of car corrected undisputed evidence of line longer wear and graders extraony of Firestone High Speed lives.
