ON AN

ELECTRIC

RANGE

Have you heard friends or neighbors talking about the advantages of an electric range, and wondered if you could afford one? Is the question

uppermost in your mind the subject of cooking cost? Have you deferred

buying a range for this reason? Here is the answer to your problem! You do not need to guess at the cost of cooking electrically. You do not

need to take any one's word for it. You can find out definitely for yourself

without buying a range or making a penny's investment. We will let you

use a range in your own kitchen, and you are under no obligation whatever.

The plan briefly is this: We will install an electric range in your kitchen without initial charge, so that you may give it a thorough trial. During this trial period you simply pay for the service as registered by your meter, plus a monthly charge of \$1 for the range. There is no other cost

of any kind. If you decide to keep the range, your monthly payments

will be applied toward the purchase price. If you decide that you do not
