Birmingham's Second Team Not Able To Break 13-13 Balance Tuesday

Although the backfield had improved overnight, the Birmingham second team was only able to hold Pontiac high school to a tie last Tuesday at Pierce Field. The score was 13-13.

Birmingham scored their touchdowns in the first half while Pontiac made theirs in the last half. Don Porteous made both of Birmingham's touchdowns. He put over one in the first quarter, after which Collins added the extra point on the first half while Pontiac scored on a plunge. The second score was made in the second quarter on another end run. The extra point was not kicked.

Birmingham didn't seem to hold Pontiac as well in the last half as they did in the first. Pontiac pushed over one touchdown in the third quarter the extra point failed to be kicked, and another in the fourth quarter, kick for extra point being good.

Prof.—What is the outstanding contribution that chemistry has given to the world?
Freshman—Blondes.

NEW CARS EXPRESS "SPIRIT OF CHRYSLER"

"The spirit of Chrysler finds its fullest expression in the 1935 line," said J. W. Fraser, vice-president of the Chrysler Sales Division of the Chrysler Corporation in discussing his company's new cars.

"I think that the public is definitely conscious that there is such a thing as the spirit of Chrysler," Fraser said. "I think individuals have a definite personality. Even since the first Chrysler was introduced in 1929, the Chrysler personality has been distinctive—different from that of any other organization in the industry."

"The pioneer spirit, forever seeking something better and finer, has been the keynote of this Chrysler personality. From the beginning, Walter P. Chrysler recognized his engineers to be dis-regard precedent and established practice. They have been daring in their thinking. The only taboo in Chrysler engineering has been self-satisfaction. Nothing ever has been considered the ultimate goal. No matter how good one year's Chrysler car may be, the next year's must be better."

\$20,000 PAYROLL ON WPA JOBS HERE

Seven Oakland County Projects Using Total Of 583 Men

Approximately \$20,000 has been expended by the WPA on payrolls in Oakland County. Harry L. Pierson, state Works Progress administrator, said Monday.

Seven projects are under way giving employment to 583 men. On several of the jobs one-third of the work has been finished.

In Royal Oak 223 men are employed on three projects which include street repair, replacement of sidewalks and rehabilitation of street car lines. So far they have graded 9,100 square feet of work. At most four miles of street car track have been cleaned and grubbed. A half mile of track was relaid.

The street repair project has necessitated the cleaning of two miles of ditches, the excavation of three additional miles and the grading of a mile of streets. This job is twenty-one per cent complete.

At Drayton Plains 83 men are at work demolishing the old fish hatchery and building a new one. The WPA has allotted \$98,299 for wages while the State Conservation Department, as sponsor, provided \$10,443. The workers have earned \$2,978. They have wrecked the old administration building and moved the material to a new site. Six ponds have also been lowered.

Twenty-four men working on drainage ditches in Oakland County rural districts have cleared and grubbed two and a half miles of open drains and have excavated 1,650 yards of earth since August 30.

Another project calling for general county drain repair has given employment to 186 workers since August 23. They have cleaned 110,443 feet of ditches, half miles of ditches, at the same time lowering the grade. Fourteen and a half miles of ditches have been profiled.

Seventy-seven men have been at work in Pontiac, grading and graveling Montcalm street from Perry to Mt. Clemens. They have completed thirty per cent of the job, earning \$4,816. The WPA has set aside \$26,702 for wages.

BITS OF BIRMINGHAM

The city commission Monday night named The First National Bank of Detroit as the paying agent for the new refunding bonds.

Over 200 children attended Saturday Story Hour at the Baldwin Public Library.

I. Bailey, now living in Osceola, a resident of Birmingham 40 years, wrote to have The Birmingham Eccentric sent, "I have always read it, and I would feel lost without it," the letter read.

City Manager James Parry and City Assessor Donald Egbert are in Knoxville, Tenn., attending conference. They will return Saturday.

The organ at Temple Beth El, Detroit, has been rebuilt the number by the Wicks Co. of Illinois.

In order that the public may have an opportunity to hear it, Abraham Ray Tyler, who is beginning his 25th year with the Temple, will give a public recital Sunday, October 27, at 4:00 p.m. The temple is situated at Woodward and Gladstone avenues.

Troop R Four of the Boy Scouts will go to Camp George. Tuesday for an outdoor meeting. If it rains, the meeting will be held indoors.

Irvin Webster is scout master.

Lee M. White, proprietor of a restaurant and bakery on West Maple avenue, was accepted into membership by the Birmingham Rotary club here Monday noon at the Community House. The local club now has 44 members, according to Ed Laird and J. R. Howarth, president and secretary, respectively.

in connection, capable of providing at least \$120 worth of produce annually. Co-operative cultivation of land, as well as buying, preserving, and selling, will be the theme of the project which will have a general manager to guide it—one who is versed and able in the undertaking. We are making no promises either as to our success or failure. We feel, however, that since it is the world to experiment in the physical and pure sciences, so ought this present experiment prove of value to mankind.

The exact price of the homes was not made known by Mr. Norton, but he did say that they would be sold on long term plans at a price less than they could be purchased for on the open market. "While this may appear somewhat unfair yet we feel that the results desired offset the negative phases of the matter, and, besides, the project could only be built under these circumstances—so we are not interfering with the regular channels of business," concluded Mr. Norton.

PURELY PERSONAL

Another of those Stamp Collectors dropped into the office to suggest that all get together and start a stamp club. His name is Wylie Pearsall, his home at 650 E. Walker avenue, his intentions serious.

According to a mysterious letter received by this office from Birmingham, Birmingham has in her fair domain two future Olympic swimmers and diving stars in the persons of Peg Tracy and Mary Hogan.

Mrs. Charles Groves, nomination for Most Beautiful Birminghamite—this also from an anonymous source—

Jimmy Stone, Standard Oil's lamp-lighter on the corner of Woodward and Hamilton had a

\$25,000,000 PLANT EXPANSION REPORTED

M. E. Coyle, president of the Chevrolet Motor company, revealed today that the company has completed during the current year a \$25,000,000 program of plant expansion, increasing the production capacity of the ten Chevrolet assembly plants in the United States by 25 per cent, and raising the capacity of the company's own manufacturing plants, devoted to the making of axles, engines, transmissions and other units, to enable them to keep pace with the enlarged assembly plants.

The expenditure of \$25,000,000 was made for the erection and equipment of new buildings at assembly and manufacturing plants, and for the re-equipment and complete modernization of existing buildings. With few exceptions, most of the operations were undertaken and carried out without announcement to the public, the list of completed improvements will be given out today being the first publication of details of the program.

Announcement of the virtual completion of the company's 1935 expansion plans was made by Mr. Coyle to a group of newspaper automobile editors today as incidental to his statement that all ten Chevrolet assembly plants have been changed over within the last several weeks to produce new models of the Master deluxe and Standard Chevrolets for 1936, to be introduced in November, and that the manufacturing plants and assembly plants are already producing the new cars.

John R. Ormond to act on the county-wide camp trustees group and to promote reunions and other activities of interest to campers.

The county engineers' society, which is building a foot bridge at the camp over 100 feet long and nearly 7 feet wide, will journey up to camp this weekend to spend a couple of days working on this project. Harold Corson will head the Birmingham party. Don Egbert and P. W. Neidenfuhr will accompany him.

The Secretary, Robt. D. Lynd, reported on the Cranbrook Youth Conference, the work of the H-Y club under the leadership of Wm. Hebblewhite as senior leader and Robt. Watt as president and the participation of the "Y" in the Hal-ween community observance.

of the companies' interests there, "one Baldwin high school student wrote at the bottom of his questionnaire.

"I have answered No to all of these questions because I think that war is very unnecessary. Why not let the men in high offices, who start wars, fight the wars themselves?" wrote a high school girl.

"Isn't Pres. Roosevelt's neutrality stand rather an invitation to war?" asked one parent, who answered only one of the questions, signifying that he would fight for foreign country if the United States were involved.

Another parent wrote, "Private interests organized for the profit of a few should not expect, and are not entitled to protection at the expense of government."

KILLED IN AUTO ACCIDENT SATURDAY

Mrs. Charles F. McCutcheon, over 70 years old, was killed in an automobile accident at Boyne City Saturday. Mrs. McCutcheon is the mother of T. W. and Ray McCutcheon of Birmingham. Her grand-daughter, Miss Barbara McCutcheon, is secretary to Rev. Warner L. Forsyth.

Now, when it comes to a cigarette that will suit you . . . you want to think whether it's mild, you want to think about the taste

That Chesterfields are milder and taste better is no accident . . .

The farmer who grows the tobacco, the warehouseman who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobaccos to make a good cigarette.

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.

Outstanding

.. for mildness

.. for better taste
